EDUCATION

Sardar Patel Institute of Technology (SPIT), Mumbai B.Tech. in Electronics and Telecommunication Engineering	Nov. 2022 - June 2026
Sardar Patel Institute of Technology (SPIT), Mumbai Minor in Computer Engineering	Jan. 2024 - Dec. 2025

TECHNICAL PROFICIENCIES

Programming Languages: C/C++, Java, JavaScript, SQL
Web Technologies: HTML5, CSS3, React.js, tailwind CSS, Node.js, Express.js, REST APIs
Development Tools: Git, GitHub, VS Code, IntelliJ IDEA
Database Systems: MySQL, MongoDB
CS Fundamentals: DSA, OOP, Computer Architecture and Organization, DBMS, OS
Soft Skills: Communication, Analytical Thinking, Problem-Solving, Research, Adaptability

WORK EXPERIENCE

Software Development Intern <i>GoGreenTechnologies</i>	May 2025 – July 2025 <i>Mumbai, Maharashtra</i>
- Led 4-person intern team to migrate legacy HTML/CSS website to modern MERN stack, delivering 4 interactive platform sections. - Engineered MDM Submission module processing 50+ student projects with automated form validation, PDF verification, and real-time user feedback. - Implemented JWT-secured admin dashboard featuring advanced filtering, search functionality, and 5+ Chart.js data visualizations. - Architected MongoDB schemas and RESTful APIs, boosting admin review efficiency by 70%.	

PROJECTS

EmpowerHer <i>Flutter, Firebase, Python, Google Cloud, AI/ML</i>	Apr. 2025
- Developed a multi-lingual, voice-first AI platform to empower rural underprivileged women of diverse linguistic and ethnic backgrounds. - Implemented voice-based feedback, voice-driven app navigation, micro-task earnings, savings tracking and goal based progress monitoring. - Adopted a modular AI strategy of using LLMs only where needed.	
Internity <i>NEXT.js, Node.js, Python, Supabase, WebRTC</i>	Mar. 2025
- Built a comprehensive multi-functional one-stop solution that streamlines the hiring process through three core features of interview dashboard, IDE for coding interviews and comprehensive job listings portal. - Developed frontend using NextJS, dashboards with Kanban boards and embedded coding environment using Monaco editor allowing candidates to practice, showcase and validate their technical skills using interviews. - Used Supabase for scalable backend and real-time data handling during high user traffic.	
CarboTrack <i>HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, tailwind CSS</i> (Deployment Link)	Nov. 2024
- Created a comprehensive web solution that empowers users to track their carbon footprint, provides personalized insights and tips to reduce carbon usage and rewards them for achieving sustainability milestones. - Implemented features such as carbon footprint tracker, community car-pooling hub and chatbot to ask questions and clear queries related to sustainability.	

ACHIEVEMENTS

- Secured **1st prize** in AI for social cause domain out of **750+ participants** at Airavat 2.0 AI Hackathon at SPIT, Mumbai.
- Secured **2nd Runner Up position** at CodeAstra Hackathon out of **400+ participants** at RGIT Mumbai .
- Secured **Top 6 rank** out of 600+ participants at Technovate 2.0 Hackathon organized by RC SPIT.
- Secured **3rd Rank** out of **400+ participants** at CraftNCode Minithon 4 hour Frontend hackathon organized by CSI-SPIT
