TECHNICAL PROJECTS

SarthAI – AI Career-Coach SaaS - *Next.js 15, React 19, NeonDB, Inngest*

March 2025

- Built a multi-tenant full-stack platform that automates résumé and cover-letter creation plus mock interviews.
- Built a responsive interface using Next.js App Router, React Server Components, Tailwind CSS, and shadcn/ui.
- Implemented role-based authentication via Clerk and modelled user/subscription data with Prisma on NeonDB.
- Connected Gemini 1.5-flash via Server Actions to generate ATS-ready résumés and adaptive interview questions.
- Queued PDF rendering and email alerts with Inngest background jobs, then shipped to production on Vercel via automated CI/CD.

Prescripto Hospital Management System - *React.js, Node/Express, MongoDB*

Jan 2024

- Built a three-portal hospital web app (patient, doctor, admin) with React front-ends connected to a RESTful Express API.
- Modelled users, doctors, appointments, and prescriptions in MongoDB and exposed CRUD endpoints secured by JWT role tokens.
- Implemented appointment booking, daily doctor queue, and admin doctor-management workflows end-to-end.
- Integrated a secure online payment gateway for appointment fees.

MERN Estate Platform - *React.js, Node/Express, MongoDB, JWT*

May 2023

- Developed a full-stack real-estate marketplace with React + Vite front-end connected to a RESTful Express API.
- Implemented user authentication, property listing, search & filter, and save/unsave features backed by MongoDB.
- Built role-based dashboards for agents and buyers, enabling listing creation, edits, and application tracking.
- Integrated secure online payment gateway for premium listing packages.
