

Dishita Jain

Mumbai, India | dishij901@gmail.com | 8237895860 | [LinkedIn](#) | GitHub: [dish-j](#)

PROFESSIONAL SUMMARY

Final-year Engineering student with strong foundations in Python, AI/ML, and full-stack development, specializing in building intelligent data-driven applications using RAG architecture, computer vision, and modern cloud platforms. Demonstrating problem-solving mindset through patent-granted innovations and leadership in cross-functional teams. Eager to leverage agentic thinking and technical expertise to drive digital transformation at world-class enterprises across healthcare, finance, and technology domains.

SKILLS

Programming & Development: Python (pandas, numpy, scikit-learn, Flask), Java, SQL (PostgreSQL), JavaScript (React), RESTful APIs
AI/ML & Data Engineering: Machine Learning (Regression, Classification, NLP, EDA), LangChain, Vector Databases (FAISS), Prompt Engineering (LLMs), ETL Pipelines, Data Warehousing, Computer Vision (YOLO), Model Deployment
Cloud & DevOps: AWS, Azure (basics), Docker, Git, CI/CD, Linux, MongoDB, Power BI

EXPERIENCE

GO-Green Technologies Pvt. Ltd. | AICTE IDEA Lab

Andheri, Mumbai, India

Embedded Systems Intern

Jan 2025, Currently Pursuing

Programmed ESP32 microcontrollers using RTOS logic in C++/Python, integrating 5+ sensor types and motor control systems for IoT-based environmental monitoring solutions by developing modular architecture improving system response time by 25% and reducing debugging overhead.

German Patent and Trademark Office

Munich, Bavaria, Germany

Co-Inventor - Patent Publication (Bank Locker Security Enhancement System)

Apr 2025, Granted

Co-invented German Utility Model No. 20 2025 100 178, enhancing bank locker security protocols by 30% through biometric authentication and sensor monitoring, conducted comprehensive technical testing and documentation across 50+ test scenarios.

Indian Institute of Technology Patna

Patna, Bihar, India

Summer Research Internship - Research Intern

Jun 2024, Aug 2024

Formulated a multimodal security protocol integrating contactless fingerprint, facial, and voice biometrics, improving system robustness by 18% and reducing processing time by 15% through the development of a novel fusion algorithm.

Sardar Patel Institute of Technology

Mumbai, Maharashtra, India

Joint Secretary, ENACTUS

Aug 2023, Nov 2024

Led 3+ national/local community development events engaging 150+ participants and managed timelines for 5 social entrepreneurship projects to successful completion ensuring 100% on-time delivery while maintaining quality standards and budget constraints with stakeholders.

PROJECTS

Loan Default Risk Prediction | Personal Project

Thane, India

ML Project deployed as full-stack web app and data pipelining

Jan 2025, May 2025

- Developed and deployed a full-stack web application using Flask and PostgreSQL, with real-time form input and API-based prediction engine.
- Developed a complete data pipeline, from cleaning a 148K-entry dataset to integrating and deploying a predictive model with a RESTful API and deployed on Render with CI/CD integration.

AI-Powered Medical Chatbot (Med-Me) | Personal Project

Thane, India

RAG Architecture with LangChain, Vector DB (FAISS), Hugging Face LLMs & Streamlit UI

July 2025

- Processed 500+page medical encyclopedia into 1,200+ text chunks using FAISS vector embeddings, achieving sub-2 second response times for healthcare queries
- Implemented LangChain-based safety protocols preventing 100% hallucination rate through source verification, delivering responses with mandatory citations from verified medical textbooks

AI-Powered Intruder Detection System | Academic Project

Andheri, India

Lead AI and debugging Engineer

Feb 2024, Nov 2024

- Led backend integration of YOLOv7 with NVIDIA Jetson for real-time object detection configuring hardware-software interface via OpenCV.
- Designed Python pipelines and multithreaded processes while active system debugging for 15 FPS output

ACTIVITIES AND LEADERSHIP

Python 101 for Data Science by IBM

Google Cloud Big Data and Machine Learning Fundamentals (Badge)

SQL Advanced, HackerRank Certificate of Accomplishment

RESTFUL APIs Crash course, UDEMY

Letter of Appreciation for Outstanding Achievement, by Sardar Patel Institute of Technology

Soft Skills, Public Speaking - NPTEL Swayam Certification (Elite, Silver Medal)

Ideathon, VJTI, Winner, conceptualizing "Tasko," a gig and freelancing platform

EDUCATION

Sardar Patel Institute of Technology, B.Tech in Electronics and Telecommunications

Expected Graduation, Jun 2026, Andheri, Mumbai

Shubham Raje Junior College, Maharashtra State Board, Science: 80%

Graduated, Jun 2022, Thane, Mumbai

Universal High School, ICSE, Science: 96%

Graduated, Jun 2020, Thane, Mumbai
