Education

Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology, Mumbai

Bachelor of Technology, Electronics and Telecommunication Engineering

November 2022 - Present

SP Jain Institute of Management and Research, Mumbai

Minor in Management

February 2024 - Present

• Finance • Operations and Supply Chain Management • IT for Business • Marketing

CGPA: 8.81/10

Internships

Elemantra (26 Sept - 26 Nov 2024)

- **Operational Efficiency Enhancement:** Collaborated with the project management team to improve operational efficiency by automating the update of progress tracking, significantly reducing manual effort by approximately **4-5 man hours per week** and ensuring more accurate data.
- **Project Metrics & Performance Evaluation:** Streamlined the tracking of project delays and calculated key project efficiency metrics, providing actionable insights that helped in optimizing timelines and reducing costs.
- **Supplier Performance Analysis:** Assisted in evaluating supplier performance by compiling detailed reports, directly informing **strategic decision-making** to enhance project execution and cost management.

Projects

Smart HVAC System (February 2025 - Present)

- **Real-time Control App:** Developed a smart HVAC control application using **React Native**, **Next.js**, and **TypeScript** integrated with **FastAPI** and a machine learning model.
- **Real-time Data Integration:** Connected the app with real-time APIs and deployed **FastAPI** endpoints on **Azure**, enabling seamless data flow for HVAC system control and monitoring.
- **Data Visualization:** Enabled real-time data storage and visualization through **Azure**, linking **ESP32** and **MATLAB** for advanced data analysis and insights.
- **Comprehensive Dashboard:** Designed a user-friendly dashboard that provides a comprehensive view of HVAC system performance through real-time data accessed via **FastAPI** endpoints deployed on **Azure**.

Customized Application for Advisory (June 2024 - Present)

- **NLP Application Development:** Developing a customized NLP application using **LangChain**, integrating financial expertise to provide insightful advisory.
- **Web Scraping Automation:** Automated the fetching of **financial data** from the **AMFI API** daily using **App Scripter** in Google Sheets, ensuring accurate, real-time financial data retrieval.
- **Real-time Data Integration:** Integrated **real-time data** from APIs like **MFAPI**, ensuring up-to-date and accurate data retrieval for comprehensive financial analysis and decision-making.
- **Data Processing & Analysis:** Utilized advanced data processing techniques to analyze and structure the scraped and API-driven data, providing actionable insights for **financial advisory**.

Environmental Data Dashboard (January 2025)

- **Interactive Dashboard Development:** Developed an interactive **R** dashboard leveraging **Shiny**, **Plotly**, and **Leaflet** to visualize critical environmental metrics, including **weather patterns**, **earthquake activity**, and **tsunami occurrences**, offering users a comprehensive view of natural phenomena.
- **Data Cleaning & Transformation:** Applied advanced **data preprocessing** techniques using **dplyr** and **lubridate** to clean and transform raw environmental data, ensuring high-quality and consistent datasets for in-depth analysis.
- **Trend Analysis & Visualization:** Utilized **ggplot2** for detailed trend analysis and **Plotly** for interactive, dynamic visualizations to uncover significant patterns and correlations in environmental data, aiding in better risk assessment.
- **Actionable Insights for Decision-making:** Delivered critical insights for natural disaster preparedness by presenting **real-time earthquake and tsunami risk assessments**, helping users make informed decisions with timely and actionable data visualizations.

Technical Strengths

Languages : C, C++, Python, Micropython, R, SQL

Tools : Git, Google Sheets, Figma, Canva, Thonny, MATLAB, Google Colab, Microsoft Azure

Frameworks : Matplotlib, Pandas, Numpy, Seaborn, RestAPI, Websocket API, Next.js, React

Positions of Responsibility

- **Finance Head & Founding Member, Speakers Club, SPIT (July 2024 - Present)**
- **Mentor of Junior Students (October 2024 - Present)**
- **Head of Creatives, WIE-IEEE-SPIT**
- **Head of Operations, IETE, SPIT**
