Education

Sardar Patel Institute of Technology (S.P.I.T.), Mumbai	2022–2026
B.Tech. in Electronics and Telecommunication	CGPI: 7.86
M.K.V.V International Vidyalaya, Mumbai (CBSE 12th)	90.2%
RBK School, Mira Road (ICSE 10th)	93.2%

Projects

Electrodrip: Portable Medical Device for Iontophoresis Skillset: Medical IoT, Embedded Systems,
Patent Application No.:202421089415
Developed a wristband-type independent controlled automated drug delivery system for arthritis and cancer patients through a process called iontophoresis, selected for the Final Round of the Smart India Hackathon.

SkyMapper Satellite Tracker Skillset:Satellite Communication, Antenna Design, Image Processing
Best Research Paper Award in Konkan District Designed and implemented an antenna system to track geostationary satellites and process real-time weather images.

CAN Satellite Sensor and Control Circuit
Skillset: Embedded system, Sensor Integration, Zigbee Communication,
Demonstrated expertise in embedded systems, PCB design, and Zigbee communication by developing a compact satellite system for NASA's International CanSat Competition. Designed and fabricated custom PCBs, integrated multiple sensors, and wrote embedded C code for accurate real-time data acquisition and transmission, highlighting strong hardware-software integration skills.

Experience

Govt. India DST Project Intern, S.P.I.T Jan 2024 – Jul 2024
- Designed Control System and also PCB design for Medical Devices and telecoms Devices. STM32 and PIC16 microcontroller based systems for use of Drug Delivery. - Worked on telecom power supply projects, implemented communication protocols, and programmed microcontrollers.

Technical Skills

Programming: C, C++, MicroPython, Verilog, MATLAB
Microcontrollers: ESP32, STM32, PIC18, ARM, Atmega
EDA Tools: Altium Designer, Proteus
Other: PCB Design, Embedded Systems, IoT, Wireless Communication

Achievements

- Electrodrip : Patent Published , Application No.: 202421089415
- 10th Rank (Global) in American CANSAT Competition (2024)
- 2nd Position in IdeaLab Innovation Competition (2024)
- 2nd Position in IEEE SPIT BugBuster Competition (2024)

Leadership and Volunteering

Sports Secretary, S.P.I.T Sports Committee	2024 – Present
Electronic Team Lead, CAN Satellite Team	2023 – 24
Project Lead, SP-TBI	2025
STEM Training Speaker, IEEE Bombay Section	2024
