Education

Bachelor of Technology in Electronics and Telecommunication

Sardar Patel Institute Of Technology

Oct. 2022 – Jul 2026

Mumbai, Maharashtra

Minor in Computer Science

Sardar Patel Institute Of Technology

Jan. 2024 – Jul 2026

Mumbai, Maharashtra

Experience

APISwan

Software Engineer Intern

Jan 2024 – Jun 2024

Mumbai, Maharashtra

- Developed a responsive landing page using **React.js**, **Redux**, and **TailwindCSS**, applying strong **analytical skills** and ensuring **100% responsiveness** across **3 device types** and **20+ screen resolutions**.
- Integrated **Firebase** authentication for secure signup/login, demonstrating solid **business acumen** and supporting testing by **50+ users**.
- Built a custom **VS Code extension** in **JavaScript** to automate repetitive tasks, showcasing **self-motivation**, **efficiency**, and effective **time management**.

Sardar Patel Institute of Technology

Frontend Development Intern

Jun 2024 – Aug 2024

Mumbai, Maharashtra

- Developed and deployed the **NAAC-SPIT** website using **React.js**, improving accessibility by **25%** through **quantitative analysis** and achieving full mobile responsiveness.
- Implemented navigation with **React Router** and styling via **TailwindCSS**, exhibiting strong **multi-tasking** and reducing load time by **30%**.
- Enhanced UI performance for cross-browser compatibility, reflecting clear **communication** and increasing reach to **500+ monthly visitors**.

Projects

MarketMinds: Stock Insights Platform 🐙 | *ReactJS, NodeJS, Redux, Chart.js, Tailwind CSS, OpenAI API, Finnhub API*

- Built a stock dashboard processing **10,000+ data points daily** from the **Finnhub API**, displaying real-time price updates every **5 seconds**.
- Integrated **LLM API (OpenAI)** to generate concise natural-language summaries of stock performance, reducing user analysis time by **40%**.
- Designed **3 interactive charts** using Chart.js to visualize historical trends, sector diversification, and AI-generated predictions.
- Optimized global state with **Redux Toolkit**, achieving response latency under **50ms** across portfolio components.

MarketBasket: Purchase Pattern Analyzer 🐙 | *Python, SQL, Jupyter Notebook, Apriori, Eclat*

- Analyzed **5K+ retail transactions** using **SQL** to extract and preprocess transactional data for pattern mining.
- Implemented **Apriori** and **Eclat algorithms** in **Python (mlxtend library)** within **Jupyter Notebook**.
- Discovered **20+ product associations** with minimum support of **3%** and confidence of **60%**.
- Visualized association rules and presented **cross-selling insights** to recommend product bundling strategies.

Technical Skills

Languages & Frameworks: C++, JavaScript, React.js, Node.js, Express.js, Redux Toolkit, Tailwind CSS, Socket.io, MUI, Framer Motion, GSAP.

Databases & Tools: MySQL, MongoDB, Firebase, Power BI, REST APIs.

Relevant Coursework: Data Structures and Algorithms, DBMS, OOPS, Operating Systems, System Design.

Leadership / Extracurricular

Winner - Smart India Hackathon (SIH) 2024

Web Developer

2024

National Level Hackathon

- * Constructed an intuitive web front-end using React.js, facilitating seamless interaction and display of AI-generated content, resulting in zero reported usability issues from **5+ users**.
- * Collaborated within a **6-member team** to design and deploy a scalable AI assistant for industrial query handling.
- * Implemented **responsive design** to ensure compatibility across **10+ screen sizes** including mobile, tablet, and desktop.
- * Integrated frontend components with backend **API calls**, enabling real-time interaction for **5+ data endpoints**.
