Education

Sardar Patel Institute of Technology

Mumbai, India

Bachelor of Technology in Electronics and Telecommunication Engineering

Dec. 2022 – May 2026

- Relevant Coursework: Data Structures, Algorithms, OOP, DBMS, Web Development, Computer Networks

Adarsh Junior College of Science

Shingaoon, India

Higher Secondary Certificate (HSC), 12th Grade

Oct. 2020 – May 2022

Sahakar Vidya Mandir

Deulgaon Raja, India

Secondary School Certificate (SSC), 10th Grade

Jun. 2008 – Mar. 2020

Technical Skills

Programming Languages: Java, C++, Python, SQL, Solidity

Web Technologies: React.js, Node.js, Next.js, TypeScript, HTML5, CSS3

Databases & Tools: MongoDB, MySQL, PostgreSQL, Docker, Figma, Git, GitHub

Problem Solving: Data Structures, Algorithms, Competitive Programming

Projects

Stock Sentiment Dashboard | React.js, Node.js, JavaScript, BERT, LSTM, Scikit-learn

Jan 2024

- Developed a full-stack web app to analyze and visualize stock market sentiment using financial NLP.
- Built React frontend with interactive charts, real-time sentiment updates, and historical trend display.
- Integrated BERT, DistilBERT, and LSTM models via Node backend for sentiment classification and prediction.
- Achieved 76% accuracy on next-day market movement prediction using combined sentiment and time series data.

Resume Review System | React.js, Node.js, JavaScript, Gemini 2.0 Flash

Nov 2023

- Built a resume analysis tool to parse resumes and provide intelligent feedback and keyword suggestions.
- Frontend allows PDF upload and displays scored feedback using React.js.
- Used Node.js backend integrated with Gemini 2.0 Flash for LLM-powered feedback and formatting checks.
- Includes scoring heuristics, keyword density checks, and role-based resume matching analysis.

Competitive Programming & Achievements

Codeforces: Achieved Pupil status with a rating of 1250+

Problem Solving: Solved 500+ DSA problems across LeetCode, HackerRank, CodeChef, etc.

Contests: Ranked among top performers in college-level competitive programming contests

Core Strengths: DP, Graphs, Greedy, Trees, Arrays, String Algorithms

Self-Learning & Development

Online Learning: Completed courses on Data Structures, Algorithms, and Full Stack Web Development

Personal Projects: Continuously building and improving real-world applications using trending tech

Code Quality: Follow clean code principles and manage source code using Git/GitHub
