EDUCATION

- Sardar Patel Institute of Technology** Mumbai, India
B.Tech in Electronics and Telecommunication (Major) & Computer Science (Minor); CGPA: 8.1 2022 – 2026
- Indian Institute of Technology, Madras** Chennai, India
BS in Data Science and Applications (Online) 2023 – 2026

CERTIFICATIONS

- Google Cloud Foundations:** Mastered core Google Cloud services, such as infrastructure, networking, and security, through the [Google Cloud Foundations](#), strengthening skills in cloud implementation and operational efficiency.

TECHNICAL SKILLS

- Languages:** C, C++, JavaScript, TypeScript, Java, Python
- Databases:** MySQL, PostgreSQL, MongoDB, SQLite, Redis
- Frameworks:** Node.js, React.js, Spring Boot, WebSocket, Kafka, Next.js, Express, Flask, Tailwind CSS, MUI
- Tools & Technologies:** Docker, Git, Prisma, GraphQL, Jupyter
- Machine Learning & Data Science:** Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Power BI, Agentic AI

PROFESSIONAL EXPERIENCE

- Hexaware Technologies Ltd.** Mumbai, India
Project Trainee June 2024 – Aug 2024
 - Backend Development:** Developed a [microservices-driven shopping cart application](#), leveraging a Java-based backend (Spring Boot) and Apache Kafka to improve bulk messaging, reducing message delivery time by 25%.
 - Security Enhancements:** Implemented Spring Security and JWT, securing authentication and role-based authorization across the application.
 - Testing & Reliability:** Conducted 50+ unit tests with JUnit5, significantly improving code reliability and reducing defects by 40%.
 - Real-Time Features:** Integrated React.JS and JavaScript with WebSocket, enabling real-time updates and enhancing user experience.
- Desire Instant Chai Café** Mumbai, India
Freelance Data Analyst Nov 2024 – Feb 2025
 - Profitability Growth:** Implemented ML-driven inventory strategies and optimized pricing, resulting in a 20% increase in overall profitability.
 - Operational Efficiency:** Optimized staffing and restocking schedules using predictive modeling, significantly improving peak-hour service and reducing idle resources.
 - Sales Forecasting:** Built a Random Forest model with 99% R^2 accuracy to forecast sales, directly influencing smarter inventory and staffing decisions.
 - Data-Driven Insights:** Presented findings in a [Kaggle notebook](#) and documented the project with detailed resources [here](#).

PROJECTS

- nebulaX – ML Experiment Tracking Library** April 2025 – Present
Developer & Maintainer ([GitHub](#))
 - Experiment Tracking:** Designed a robust system for hyperparameter logging, metric tracking, and metadata storage, ensuring version control and efficient experiment analysis.
 - Visualization Suite:** Created interactive modules for cross-framework performance analysis, improving model evaluation and reproducibility.
 - Framework Integration & Storage:** Implemented a modular storage architecture supporting JSON and SQLite backends, enabling efficient data management for experiment tracking. Integrated with TensorFlow, PyTorch, and Scikit-learn to provide automated and seamless logging capabilities with minimal configuration overhead.
- MedEase - Healthcare Management System** Dec 2024 – Jan 2025
 - Location Services and Routing:** Utilized MapBox API and Foursquare API to implement geolocation-based searches and route plotting for hospitals, pharmacies, and labs.
 - Secure Health Data Management and Optimization:** Integrated Metriport API for EHR and FHIR-compliant health record storage, Clerk API for OAuth-based user authentication, Google Calendar API for appointment scheduling, and Redis Caching for enhanced performance and faster data retrieval.

ACHIEVEMENTS

- Secured **3rd place in the BITS Pilani Postman API Hackathon 4.0** by building the [MedEase](#) project.
- 11 x Top 10 across 21 hackathons**, showcasing consistent performance and problem-solving skills.
- Solved **600+ problems on LeetCode**, earning 18 badges and ranking in the **top 6.37% globally**.

POSITION OF RESPONSIBILITY

Technical Head at Enactus S.P.I.T.: Led website development, supported club activities, and mentored students in technical innovation.
