EDUCATION

Sardar Patel Institute of Technology, Mumbai <i>B. Tech in Electronics and Telecommunication Engineering (EXTC)</i>	Nov 2022 - Jul 2026 CGPA: 6.54
SES Jr college of arts and sciences, Solapur <i>Maharashtra state board</i>	Jun 2020 - May 2022 HSC Boards: 71.50%
Indian Model School, Solapur <i>Central Board of Secondary Education 10th</i>	Jun 2014 - May 2020 CBSE Boards: 93.80%

EXPERIENCE

Data Science Intern <i>Nullclass Edutech Pvt. Ltd.</i>	Aug 2025 - Sep 2025 Remote intern
- Implemented projects with openCV, Keras, CNNs and Tensorflow - Worked on an attendance tracking system model that uses image to mark attendance of the student	

PROJECTS

Fully functional E-commerce website MERN Stack, Redux Toolkit, JWT, Mongoose	Aug 2025
- Developed a full-stack e-commerce platform with secure authentication (JWT), product catalog, cart, and order management, serving as a scalable end-to-end shopping solution - Implemented Redux Toolkit for state management and API integration (Axios), improving frontend performance and reducing state-related bugs by 30%. - Designed modular backend using Express + Mongoose (MVC architecture) with role-based authorization, enabling efficient data handling and reducing API response latency by 25%.	
Emotion detector AI OpenCV, Numpy, Pandas, CNN, Tensorflow, Keras	Jul 2025
- Designed & implemented a Convolutional Neural Network (CNN) in TensorFlow & Keras to accurately classify 7 basic emotions from facial images - Engineered data pipeline using Kaggle datasets: preprocessing, augmentation, normalization, and efficient dataset management for robust model training - Developed GUI using streamlit to quickly deploy a webapp	
Memegen: AI Meme generator React.js, TailwindCSS, FastAPI, Imgflip API, Google GenAI	Apr 2025
- Developed an AI-powered meme generator that selects meme templates from 100 templates and generates contextually relevant captions based on user prompts - Built a responsive frontend using HTML, JavaScript, React, and Tailwind CSS. Implemented backend logic in Python using FastAPI, integrated with Imgflip API for meme templates and Google Generative AI API for prompt-based caption generation - Added support for both auto-selected and user-chosen templates, enhancing usability - Utilized REST APIs, asynchronous requests, and prompt engineering for efficient meme generation pipeline	

TECHNICAL SKILLS

Languages - C, C++, Python, HTML/CSS, JavaScript, Tailwind CSS, Bash Scripting, MySQL
Python Libraries - NumPy, Pandas, Seaborn, Matplotlib, OS, TensorFlow, Keras, OpenCV
AI/ML - Convolutional Neural Networks(CNNs), Model Training & Evaluation, Data Preprocessing
Web library/frameworks - MongoDB, Express, React, Node.js, Redux Toolkit, FastAPI
Additional - Google cloud platform, MATLAB, Assembly, x86, PIC, ARM instruction set
CS Relevant coursework - Object oriented programming, Computer networks, DBMS, Software engineering, AI/ML

POSITIONS OF RESPONSIBILITY

Institute of electronics and telecommunication engineering, SPIT <i>Creative Head</i>	AY 2023-2024
- Handled creative work, including video editing and static creatives - Led, Worked with and collaborated with 2 other heads and 5 subcommittee members. - Managed and operated in 3 major events across the year	
Oculus Annual fest 2024 <i>AEJ event social media head</i>	AY 2023-2024
- Handled social media, creatives of Aelaan-e-jung dance event. Looked after 3 sub-events and pitched to sponsors - Handled automation of large manual tasks (using selenium and python)
