Education

Sardar Patel Institute of Technology

Bachelor of Science in Electronics and Telecommunications

Oct. 2022 – May 2026

Mumbai, Maharashtra

Experience

Hindustan Petroleum Corporation Limited

June 2024 – July 2024

Designed 4 dashboards utilizing diverse datasets using **Power BI** and **Excel**

Summer Intern

- **Resignation Overview**- Categorized reasons for employee resignations over 5 years, covering **200+** records.
- **Ideal Career Progression**- Mapped assumed 3-year promotions, enabling **25% faster** review of progression paths.
- **Projected Career Progression**- Modeled average-speed promotions to identify **15% variance** from ideal paths.
- **Past Promotions**- Tracked and analyzed employee promotions from 2022–2024, visualizing **500+** promotion cases.

Technical Skills

Programming Languages: C++, SQL, Python, HTML, CSS, JavaScript, React.js, Pandas, Numpy

Developer Tools: MySQL, MongoDB, VS Code, Figma, MS Excel, PyCharm, Jupyter, Google Colab, GitHub

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Computer Networks, OOPS

Projects

Spatia | *React.js, JavaScript, Python*

May 2025

- * Developed a **Geographic Information System** tool to process and visualize **500+ MB** spatial data with support for **GeoJSON, Shapefile, and WKT** formats.
- * Implemented spatial operations like **Buffer, Union, Intersection, Difference, and Spatial Join** with interactive before/after map visualizations.
- * Designed an intuitive **UI** with clickable layers, visibility toggles, and dynamic zoom/pan to make advanced geospatial analytics accessible for non-GIS users thereby increasing user interaction and exploration by **50%**.

Employee Management System | *React.js, Node.js, Express.js, MongoDB*

March 2025

- * Built a **responsive employee management platform** with authentication, dashboards, and CRUD operations for managing employee data, leaves, and salaries.
- * Created dynamic **React interfaces** for data filtering, pagination, and search, reducing manual checks by **40%**.
- * Implemented RESTful APIs secured with JWT authentication and integrated **MongoDB** for reliable structured data storage, retrieval, and scalability.

Shopsy | *React.js, React Router, Context API*

January 2025

- * Built a **frontend-centric e-commerce platform** with routing across **4 pages-Home, Product, Cart, and Contact**, managing **50+ product listings**.
- * Leveraged **React bits and reusable UI components** for consistent styling and interactive elements across the pages.
- * Utilized Context API for global **cart state management**, enabling seamless cart updates with **minimal latency**.

Retail Bicycle Sales Analytics | *SQL, Database Management Systems*

December 2024

- * Used **50+ SQL queries** on a retail bicycle sales dataset with thousands of entries, employing **ER modeling, joins, aggregations, subqueries, and set operations**.
- * Conducted **exploratory and advanced analytics** including trends, cumulative metrics, performance evaluations, and part-to-whole comparisons.
- * Performed **customer and product segmentation** across **5,000+ customer** records to enhance reporting and business decisions.

Position of Responsibility

Entrepreneurship-cell

August 2023 – May 2024

Head of Social Media

Sardar Patel Institute of Technology

- Guided content planning and publishing, aligning social media efforts with broader marketing goals, achieving a follower growth of **1000+ in 6 months**.
- Led and organized the **Acquisition Arena** event with **200+ participants** with a price pool of **50,000 Rs.**, overseeing all planning and execution for a seamless, impactful experience.

Achievements / Certificates

- * **1st Runner Up in HERE Technologies Hackathon** among 200+ participants.
- * Shortlisted in **YUKTI Innovation Challenge** among 50 teams on basis of mini project
- * SQL Intermediate- HackerRank
