- **Tools:** Power BI, MySQL, MS SQL Server, Tableau, MS Excel, MS Powerpoint, Figma, MS Office.

Projects

Predictive Loan Eligibility System | *Exploratory Data Analysis, Machine Learning*

Oct 2024

- Engineered a loan default prediction model using **LightGBM**, leveraging advanced **feature engineering** to **improve recall by 30%**, leading to a projected **reduction in credit losses by over 15%**.
- Developed a robust **data preprocessing pipeline** to mitigate severe class imbalance and **handle missing values**, ensuring **high model stability** and **performance** on real-world, noisy financial data.
- Deployed a strategic risk model that **automated 90%+ of low-risk approvals**, balancing portfolio risk with key financial KPIs and **reducing manual review time**.

StreamPulse | *SQL, Database Management*

Apr 2024

- Designed and queried a SQL database of **100k+ Spotify streaming events**, modeling tracks, artists, and user interactions to analyze **user behavior** and **platform engagement**.
- Uncovered insights like low-skip, high-retention tracks and platform-specific engagement patterns, driving strategies to **increase user retention**, **optimize high-performing content**, and **unlock revenue growth opportunities**.

Athenium | *Selenium, Python, OpenPyXL, Seaborn*

Dec 2024

- Automated the **extraction** of over 40 historical shareholding reports for any NSE-listed company, **reducing data collection time to less than 10 minutes**.
- Translated complex financial data into interactive **Seaborn** visualizations within a **CustomTkinter** interface, enhancing data accessibility for financial analysts.
- Scaled the solution by implementing batch automation for the entire **Nifty 50** index, eliminating manual updates and accelerating market analysis.

Lead Scoring Model | *Exploratory Data Analysis, Machine Learning*

Aug 2024

- Built a lead scoring model to identify Hot Leads using **logistic regression**, targeting an **improved conversion rate** from **30% to 80%**. Achieved **94% accuracy** with a **sensitivity** of **86%**, **specificity** of **94%**, and **precision** of **93%**.
- Performed **data preprocessing** and **feature scaling**, and conducted **data visualization** using **Matplotlib** and **Seaborn**. Assessed **multicollinearity** with **variance inflation factor (VIF)**.
- Evaluated model performance using the **ROC Curve** and identified the **optimal cutoff point** for accurate lead classification.

Positions of Responsibility

Vice Chairperson | *Entrepreneurship Cell, SPIT*

Sep 2024 – May 2025

- Led a **70-member** cross-functional team across marketing, operations, and finance, optimizing scheduling and **resource allocation** to ensure cohesive collaboration, successfully executing E-Summit'25 under tight deadlines with **88% attendee satisfaction**.
- Oversaw a **₹1M event budget**, applying strategic **capital allocation** and **vendor negotiation** to **reduce overheads** by **15%**.

Head of Marketing | *Entrepreneurship Cell, SPIT*

Sep 2023 – Aug 2024

- Raised **₹0.7M+ in corporate sponsorships** by designing tailored pitch decks for CXOs, aligning brand objectives with event KPIs, cultivating **long-term stakeholder relationships**, **increasing partner retention by 40% YoY**.
