Education

Bharatiya Vidya Bhavans Sardar Patel Institute of Technology <i>B. Tech in Electronic and Telecommunication Engineering</i> <i>Minor in CSE</i>	2022 – Expected 2026 <i>Mumbai</i>
Nashik Institute of Technology <i>Higher Secondary School Certificate, 93%</i>	2021 <i>Nashik</i>
Ryan International School <i>Indian Certificate of Secondary Education, 90%</i>	2019 <i>Nashik</i>

Skills and Technologies

Programming Languages: C++, Java (OOP), Python, SQL.

Tools: VS Code, MySQL Workbench, Git.

Databases: MySQL, SQL.

Hardware: ESP32 Microcontroller.

Projects

AI Termsheet Validator <i>Flask, React</i>	GitHub
– Developed a termsheet validator for fast and automated termsheet analysis – Integrated automatic email retrieval for streamlined flow. Used GrokCloud APIs for effective analysis of documents – Implemented document version control to ensure proper tracking of changes in different document versions	
Meeting Summarization Using Speaker Diarization And Transcription <i>Python, ESP32, Cloud APIs</i>	Project
– Developed a real-time meeting transcription system using an ESP32 microcontroller and Python scripts for audio processing, enabling seamless communication and post-meeting reviews. – Implemented cloud-based speaker diarization services for speaker identification, enhancing meeting accessibility and efficiency. – Created an automated workflow for meeting documentation and analysis using advanced audio processing techniques.	
QuickCinema: Ticket Booking System <i>Java, MySQL, JDBC</i>	Mini Project
– Built a Java-based cinema ticket booking system with MySQL backend using JDBC for secure database connectivity and query execution. – Implemented core features including movie listing, customer management, and ticket reservations with transaction handling for data integrity. – Automated database setup (table creation, sample data insertion) and integrated logging for reliable monitoring and debugging.	

Achievements and Leadership

Barclays Hack-O-Hire Finalist – Selected as a finalist in a national-level hackathon organized by Barclays, showcasing innovative problem-solving and technical skills.

SPARK Senior Correspondent (2022–2023) – Hosted Open Mic 2022 and led backend development for the event management system.

IETE PR Head (2022–2023) – Spearheaded inter-institute collaboration to promote IETE workshops and organized student activities including treks.

SPJIMR Abhyudaya Mentor – Mentored 7th to 10th standard students in Mathematics through the “Igniting Insights” program.
