Profile — Third-year Electronics and Telecommunication Engineering student (2026) with a CS minor, passionate about using technology to solve complex problems through data-driven, scalable software solutions. Strong foundation in data structures, algorithms, and software development with experience in building full-stack applications. Interested in contributing to innovative technology and data operations to build a better world.

Education

Bharatiya Vidya Bhavans Sardar Patel Institute of Technology <i>Bachelor of Technology</i> <i>Electronics and telecommunication engineering</i> CGPA : 8.65 Minors: Computer Science	2022-26
Aryan foundation's Lakshya Prep jr college <i>Higher Secondary Education (2020-22)</i> <i>12th (PCM+Computer science) -92 percentage</i>	2020-22

Projects

Empowering Farmers with Digital Marketing and Community Engagement

Role: Front-End Developer

Objective: Enhance market reach and engagement for farmers

Description:

- Designed and implemented the front-end architecture for a multilingual React platform, enabling direct transactions between farmers and buyers.
- Integrated AI assistant (chat + voice), enhancing user engagement.
- Contributed to modular API integration for future scalability.
- Improved market demand tracking and communication through direct farmer-buyer interaction tools.
- The platform supports translation into various local Indian languages for ease of use.

MERN Travel Sharing Platform with Authentication

Role: Full-Stack Developer

Objective: Enable users to share and explore travel experiences securely

Description:

- Developed a MERN stack web application that allows users to share details about places they have visited.
- Implemented user authentication and authorization to ensure that only registered users can publish, edit, or delete their posts.
- Designed RESTful APIs for post management and integrated MongoDB for storing user and post data.
- Created intuitive front-end components using React, with protected routes for authenticated actions.

Skills

Languages C++, Python, C	Version Control Git, GitHub
Scripting Python, JavaScript	Operating Systems Linux, Windows
Web Dev React, MERN stack, HTML, CSS	DSA Strong foundation; solved 200+ problems on LeetCode
Tools Visual Studio Code, Postman	
DBMS SQL, MongoDB	

Extra-curricular Activities

- **Finalist in alphaByte 2.0** (National-Level Hackathon) conducted by *Pimpri Chinchwad College of Engineering* – Ranked among **Top 20 teams** out of **600+ registrations**.
- **Finalist in Quasar 3.0** (National-Level Hackathon) conducted by *Vasantdada Patil Pratishthan's College of Engineering* – Secured a spot in the **Top 60 teams** among **2500+ participants**.
- **1st Place in Shark Tank (Idea Presentation)** at *Alchemy 25 (VJTI)* for **'Tasko'** – A collaborative team effort recognized for innovation and problem solving.
- Actively participated in the **SE Hackathon (SPIT)** for **Web design**, showcasing proficiency in **front-end development**.
- Contributed as a **technical team member** in a **hardware competition**, demonstrating hands-on expertise in **electronic and telecommunications**.
- Earned a **certification in Project Management** via **NPTEL**, strengthening skills in **organization and project coordination**.
