Objective

Motivated and detail-oriented Computer Science student eager to apply and enhance my technical skills through internship / full-time role and apply academic learning in a real-world environment. Committed to contributing to innovative projects and gaining hands-on experience in a collaborative environment and develop my technical skills while contributing to impactful projects.

Education

Sardar Patel Institute of Technology, Mumbai (Pursuing) Bachelor of Technology in the branch of computer engineering (Expected graduation: 2026)	Nov 2022 – current CGPA: 8.19/10
---	--

Ramnarain Ruia Junior College of Arts and Science Higher Secondary Education	2020 – 2022 84.00%
--	------------------------------

SKP High school Secondary Education	2020 96.00%
---	-----------------------

Projects

Project Title:

Real-Time Chat Application - July 2025

- ❖ Description: Developed a full-stack real-time chat application enabling instant communication between users. Designed with secure authentication, responsive UI, and scalable backend.
- ❖ It has features like User Authentication & Security, Real-Time Messaging, Profile management
- ❖ Key Technologies: MongoDB, Express.js, React.js, Node.js, Socket.io

S.H.E. - Women's Safety app (Currently working) – January 2025

- ❖ Description: Developed a comprehensive AI-powered platform, S.H.E. (Secure. Healthy. Empower.), for women safety, empowerment and health (major women concern) addressed at a single platform.
- ❖ It has features like Path tracker, Menstrual cycle tracker and PCOS predictor, Real-Time news, Gynaecologist Finder.
- ❖ Key Technologies: HTML, CSS, Flask, JWT, Python, Supabase, Google Maps API, Email-JS API

Jarvis Voice-Activated AI Assistant – December 2024

- ❖ Built a Python-based voice assistant integrated with Google Gemini AI for real-time query handling. Automated tasks like web browsing, playing music, and fetching top news using Speech Recognition, News API, and pyttsx3. Enabled natural voice interaction with command processing and AI-generated responses.
- ❖ Key Technologies: Python, pyttsx3, News API, Google Generative AI, Web Browser

Technical Skills

Languages/Database: C, Java, Python, MySQL, HTML, CSS, JavaScript

Software & Tools: GitHub, Git, Figma, VSCode, Tableau

Relevant Coursework:

Operating Systems, Database Management Systems, Data Structures and Algorithms, Natural Language Processing, Data Analytics, Communication Computer Networks

Interests

Listening to music | Badminton | Cooking | Reading books | Explore new things
