Education

Sardar Patel Institute Of Technology, Mumbai

November 2022 – May 2026

Bachelors of Technology in Computer Engineering

CGPA: 7.75

Coursework: OOPS—Data Structures—OS—Database—Cloud

SR Patil College, Akola

June 2020 – July 2022

XIIth Standard

Grade : 91%

Coursework: Science—Mathematics—Communication— Personality Development

Work Experiences

SDE Intern, SixLadders | *React, Rest APIs, Python, LLMs*

February 2025 - March 2025

- Designed pipelines and **REST APIs** to streamline internal data processing workflows, **reducing operational inefficiencies by 40%** and significantly improving development team productivity
- Redesigned UI** to reduce page load time, and improve overall user experience and performance by around 20%.
- Collaborated over a IDE module**, designed system architecture, managed integration and deployment over **AWS**.

SDE Intern, Smowcode | *Python, JQuery*

June 2024 - July 2024

- Developed a dynamic web interface using jQuery reducing partition table creation time by 75%, featuring seamless CSV-to-table conversion, and data validation, **reducing data entry errors by 60%**

SDE Intern, S.P.I.T, Mumbai | *Website | MERN, React-PDF NGINX, PM2, Linux*

March 2024 - May 2024

- Developed and deployed a college **event reporting system** for college committees, streamlining the report generation process and **reducing administrative workload by 70%**, currently **serving 200+ daily active users**.
- Implemented **automated PDF generation** and **approval workflow system**, resulting in **85% faster report processing time**, while maintaining robust **user authentication** and role-based access control.
- Engineered **analytics** and **public gallery interface**, achieving **99% uptime** on college servers and **processing 100+ monthly event reports**, with integrated **email notifications** leading to 40% improved stakeholder communication.

Projects

Saarthi - Learning Platform | *React, TailwindCSS, Node.js, Python, AWS, Docker, Youtube API, Judge0*

- Built an end-to-end personalized learning platform with YouTube integration, and **educational video generation** from a text-generation model.
- Integrated **code environment** and **AI-enhanced note-taking**, resulting in **40% improved learning retention**.
- Integrated **RAG-based chatbot**, analyzing 100+ hours of video content weekly, generating resources with **87% relevancy rate**, and robust **rate limiting**.

Leetcoders - Community Platform (100+ active users) | *MERN, Socket.io, GraphQL, Cron-Job, Docker*

- Developed a **community platform** based around LeetCode, with a simple social network system, while implementing **JWT authentication** and delivering **dashboard with rule-based recommendations** based on LeetCode data.
- Developed a **stats tracking system** fetching LeetCode metrics with GraphQL queries, utilizing **Cron jobs** for automated daily progress synchronization.
- Implemented a ranking system for competitive leaderboard, also featuring challenges with progress tracking, and **email reminders** for daily practice, resulting in greater user engagement rate.

Position Of Responsibilities

Training And Placements Coordinator, SPIT

August 2023 - February 2024

- Managed on-campus recruitment drives for some elite companies, and worked in a research team with great proficiency.
- Spearheaded lead generation automation, increasing output by 10 times. Blog - [Automating Lead Generation](#)

Technical Skills

Languages/Database: C++, Python, Javascript, SQL, MongoDB

Web Technologies: HTML, CSS, React, Node.js, Express, Mongoose, Postman, Langchain, Redis

DevOps & Tools: Git, Docker, Linux, Nginx, PM2, AWS

Achievements

Comptitions: Barclays Hack-o-Hire Winner, SBI Life Hackathon Finalist, Best Pitcher At Codefolio

Contributions: 500+ contributions on Github, 3+ open-source projects
