EDUCATION

Sardar Patel Institute of Technology - 9.33 CGPA

Bachelor of Engineering in Computer Engineering

Mumbai, Maharashtra

Nov. 2022 – Expected June 2026

Universal High School - 96.2

Science Stream ISC

Thane, Maharashtra

Aug. 2020 – April 2022

EXPERIENCE

Software Developer Intern

Aug 2024 – Sept 2024

SRTR GMC Ambajogai, SPIT

Remote

- Developed and maintained a **full-stack web application** for a blood donation initiative using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Collaborated with **stakeholders** to understand system requirements and improve overall **functionality, responsiveness, and user experience**.
- Diagnosed and resolved **critical bugs** in the codebase and **MongoDB** queries, enhancing system stability.
- Deployed the application on a **Linux server** for stable and secure access.

PROJECTS

ChessAnalyzer - Personalized Training Tool | *FastAPI, PostgreSQL, React* | [GitHub](#)

Jul 2025 – Present

- Developed a full-stack chess platform that analyzes games using **Stockfish 17.1** and offers improvement advice.
- Implemented a **mistake classification system** that identifies inaccuracies, blunders, and missed tactics.
- Designed a responsive React frontend and optimized backend queries using **PostgreSQL** and **SQLAlchemy**.
- Added user authentication, persistent storage for 1000+ games, and **Docker-based containerisation** for consistent environments.

AttendEase – Smart Attendance System | *Next.js, MongoDB* | [Live Demo](#)

Sept 2024 – Nov 2024

- Built a smart attendance system with **location-based check-ins** to verify employees are within company premises.
- Scraped holiday and company data using **Selenium** and applied the **Gemini API** to predict leave trends.
- Added **pop-up reminders** for real-time attendance and leave notifications.
- Built an **interactive analytics dashboard** featuring heatmaps and charts to visualize attendance patterns.
- Leveraged **Aceternity UI** for a sleek and responsive frontend.

SmartSpend - Simplified Expense Tracker | *React, Express, Gemini* | [Live Demo](#)

Oct 2024 – Jan 2025

- Implemented a full stack Budgeting application aimed at making budgeting as simple as possible.
- Implemented an **automatic categorizing** feature which categorizes your expense for you.
- Reduced expense entry time by 33%** compared to competing systems.
- Summarizes expenses** in a handy and easy to understand manner along with filters to look at specific expenses.

ACHIEVEMENTS

Barclays Hack-O-Hire Hackathon: Finished among the **top 8 Finalists** in the Anomaly Detection Track **among 100s of teams across India**.

Patent Publication: Successfully published a patent for the AttendEase Attendance Management system.

Event Organization: Coordinated a guest speaker session for Optificient, a competitive programming club, attended by students from colleges across India.

Competitive Programming: Achieved global ranking of **107** in CodeChef Starters 162 contest. **Specialist, 1552** rated on Codeforces and **4 Star, 1817** rated on CodeChef.

TECHNICAL SKILLS

Languages: Java, C++, Python, SQL, JavaScript

Frameworks: React, Node.js, Next.js, Tailwind, FastAPI, Flask

Databases: MongoDB, MySQL

Developer Tools: Git, VS Code, Vercel, Docker, StreamLit, Google Colab

Libraries: Selenium, Pickle, Pandas, Matplotlib, Chart.js

Other Tools: Figma, Spreadsheet (MS Excel, G Sheets), Canva
