EDUCATION

Sardar Patel Institute of Technology

Nov 2022 – July 2026

Bachelor of Technology in Computer Engineering

Mumbai, Maharashtra

- **Relevant Coursework:** DSA (c++), Computer Arch, Database Management, NLP and AIML in Python, Operating Systems, Software Development, Distributed Computing, Computer Communications and Networks

S.N.K.T.T. College of Science

July 2020 – July 2022

XII Grade, Bifocal in Computer Science - 91.83%

Mumbai, Maharashtra

EXPERIENCE

Web Development Intern

Feb 2025 – May 2025

Sardar Patel Technology Business Incubator (SP-TBI)

Mumbai, India

- Enhanced and optimized the existing **SPTBI** website for better performance and faster load times.
- Identified and resolved UI/UX bugs and design inconsistencies.
- Developed and integrated a booking system into the existing website, with authorization and management controlled via the **Django** admin panel.
- Implemented a ticket-raising feature to allow startups in SPTBI to report issues directly through the platform.

PROJECTS

Stock Portfolio Manager | *React, Node, Express, MongoDB*

- Designed and developed a stock portfolio management platform with features like creating a Portfolio, stock tracking, trade management, and personalized watchlists.
- Integrated **Finnhub API** for real-time stock data, market insights, and news updates.
- Build a dynamic dashboards and interactive data visualizations using **React.js**, **Material-UI**, and **Recharts**.
- Developed secure **RESTful APIs** with **Node.js** and **Express.js**, **MongoDB** for data storage and deployed on **Render**.

PG-Finder | *React, Node, MongoDB, Express*

- Build a full-stack PGs or room finding platform for students using **React.js**, **Node.js**, and **MongoDB**, implementing user authentication, property listings, and map-based search.
- Designed and implemented a scalable backend API using **Express.js** and **Prisma ORM**, featuring comprehensive property filtering, user profile management, and post saving capabilities.
- Enabled users to create, manage, and publish PG rooms with real-time updates.

Plant Disease Prediction System | *TensorFlow, Streamlit, Docker*

- Developed a Plant Disease Prediction System using a **Convolutional Neural Network (CNN)** trained on the PlantVillage dataset, achieving accurate classification of plant diseases.
- Integrated **TensorFlow** and **Streamlit** to create a web application for real-time image-based disease diagnosis.
- Deployed with **Docker** for consistent and scalable execution across diverse environments.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, Javascript, SQL, HTML5, CSS3, PHP

Technologies: React.js, Bootstrap, Tailwind CSS, Node.js, MySQL, MongoDB, Google Firebase, Pandas, Numpy, Matplotlib, Excel, TensorFlow, Scikit-learn

Dev Tools: MS Office, Latex, VS Code, Figma, Linux, Git/GitHub, Xampp, Google Colab, CI/CD, Docker

ACHIEVEMENTS

- 3 ★ (1600+ rated) on **CodeChef** ([profile](#)) and also Solved 500+ DSA problems on **LeetCode**, **Codeforces**
- **Inspire-SHE Scholarship Recipient – Awarded by Maharashtra Government**
Top 1% in Class XII Board examination

SOCIAL ENGAGEMENTS

PR Head, Sports Committee 2023-24: Led PR for Intracollege and Intercollege events like Agility Cup 2023, Spoorthi'24, and SPIT marathon, enhancing event engagement.

Football Event Head, Spoorthi'24: Led logistics and team coordination for a successful football event, achieving high participation through strategic planning and effective leadership.
