- Organized **SPIT Half Marathon** in Juhu with **2000+** participants.
- Coordinated **Inter-College Sports Fest Spoorthi** with **8** sports and **1200+** sportsmen over 11 days.
- Managed budgets and financial planning, ensuring efficient resource allocation within constraints.
- Demonstrated problem-solving skills, ensuring seamless operations while fostering a collaborative environment.

Logistics Head, Sports Committee, S.P.I.T.

June 2023 - Jan 2024

- Coordinated transportation, equipment, and accommodations for **300+** participants.
- Liaised with vendors to ensure timely delivery of supplies and equipment.

Projects

Turf Booking System | Python

- Developed a web-based application for booking turfs with user-friendly features.
- Utilized Python, HTML, CSS, JavaScript, and Google API for location-based turf searches.
- Responsibilities included data preprocessing, feature extraction, and interface design.

Movie Recommendation System | Machine Learning

- Built a content-based Movie Recommendation System using Python, NLP, and Scikit-learn.
- Applied vectorization and cosine similarity for accurate movie suggestions.
- Developed an interactive Streamlit app with TMDB API integration.

E-commerce Sales Intelligence Dashboard | Power BI, Data Analysis

- Built an interactive Power BI dashboard to visualize and analyze e-commerce sales performance using KPIs and charts.
- Designed filters, slicers, and drill-downs for users to explore data by region, product category, and time period.
- Used data modeling and multiple data sources to track sales, profit trends, and customer behavior for informed decision-making.

Achievements

- **National Case Study | E-Summit - Runner-up**

Swiggy: Transforming Food Delivery in India

Mar 2024

- Analyzed Swiggy's competitive positioning against Zomato, identifying gaps in profitability and market reach.
- Proposed AI-powered ads, gamified delivery performance, and reverse logistics to enhance efficiency.
- Suggested expansion into new markets, strategic acquisitions, and personalized features to boost customer retention.

- **Business Case Study | UDAAN (KJSCE) - Finalist**

Spotify: Diversifying Revenue Streams

Aug 2024

- Evaluated challenges such as 70% royalty fees and a declining premium user base.
- Proposed interactive podcasts, video streaming, ticket booking, and monetization via ads, in-app purchases, and data licensing.
