EDUCATION

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Engineering

Mumbai, India

2022 – 2026

Higher Secondary School, Zadibal

Grade: 96%

Jammu Kashmir, India

2021 – 2022

Green Valley Educational Institute

Secondary School; Grade: 92.8%

Jammu Kashmir, India

– 2021

EXPERIENCE

EASTSIDE

Bangalore, India

Software Developer Intern

June 2023 – August 2023

- Developed a solid understanding of **event-driven programming** by working with **Event Listeners**. This allowed me to create interactive and responsive web applications that respond to user actions.
- Added **Dynamic Properties** to web elements, enhancing the user experience and making web applications more adaptable to changing data and user inputs.
- Gained a deep understanding of authentication systems and their importance in web security. I became proficient in managing **Authentication Tokens** and ensuring secure communication between the client and server.
- Successfully implemented and designed a **Frequently Asked Questions (FAQ) page** for the company's website, creating an intuitive and user-friendly interface to help customers find answers to common queries easily.

PROJECTS

StudyNotion – Full-Stack EdTech Platform — MERN Stack

- Built a **scalable e-learning platform** enabling students to explore, purchase, and consume courses, while providing instructors tools to create and manage educational content.
- Designed and developed **responsive front-end** with ReactJS, Tailwind CSS, and Redux for seamless state management.
- Implemented **secure user authentication** (JWT, Bcrypt, OTP verification, password reset) and **role-based authorization** for students and instructors.
- Integrated **Razorpay for payments** and **Cloudinary for cloud-based media management**(course video, thumbnail).
- Developed **RESTful APIs** in Node.js/Express.js for course management, user operations, and ratings.
- Utilized **MongoDB with Mongoose** for schema design (Students, Instructors, Courses, Ratings) to store and manage platform data.

PingMe – MERN Video Calling & Chat Application — MERN Stack

- Built a **real-time messaging & video calling app** supporting 1-on-1 chats with typing indicators, reactions, screen sharing, and call recording.
- Implemented **JWT-based authentication**, protected routes, and secure session handling.
- Designed an engaging UI with React and TailwindCSS, ensuring responsiveness and smooth user experience.
- Integrated **Stream API** for real-time chat & video, enabling scalable communication features.
- Developed REST APIs in Node.js/Express.js with robust **error handling** (frontend and backend).
- Added **multi-theme support (32 unique UI themes)** and **language-exchange features** for global usability.

TECHNICAL SKILLS

Languages

C++, C, Python (Basics), HTML, CSS, JavaScript

Frameworks

React, Node.js, Express.js

Databases

MySQL, MongoDB

Tools

Figma, GitHub, VSCode

ACHIEVEMENTS

- Top 12 Finalist - Nationwide SPIT Hackathon 2025, selected from over 300+ teams across India.
- Top 6 Finalist - KJIT Hackathon 2025, recognized for innovative solution and impactful presentation.

EXTRACURRICULAR ACTIVITIES

- Active member of the Kashmir Beatbox Community, collaborating on performances and events to foster creativity and teamwork.
- Represented [Region] in regional-level cricket tournaments, demonstrating discipline, leadership, and team spirit.
