PROFESSIONAL SUMMARY

Versatile software developer with a strong foundation in backend engineering focused on building scalable, secure, and high-performance systems. Skilled in designing and deploying data-driven applications across diverse domains including finance, education, and e-commerce. Committed to delivering impactful tech solutions through clean architecture, efficient APIs, and thoughtful problem-solving.

PROFESSIONAL EXPERIENCE

Freelance Software Developer: R-Dental E-commerce Platform Development 🔗 Jan 2025 – March 2025

- Developed **R-Dental**, a feature-rich e-commerce platform using **React**, **Tailwind CSS**, **Firebase**, **Express.js**, and **Node.js**.
- Integrated **Razorpay** for secure, **real-time payment processing**.
- Engineered a scalable backend with **RESTful APIs**, incorporating a **product recommendation system**.
- Managed the **entire SDLC** from **requirement gathering** to **development**, **testing**, **deployment**, and **post-launch maintenance**.
- Collaborated** with stakeholders to align features with user expectations, showcasing **product ownership** and **problem-solving skills**.

PROJECTS

Equity Elite: A Social media platform for traders | *React, NodeJs, ExpressJs, MongoDB* 🔗 Aug 2024 – Nov 2024

- Built a **real-time** web app using **WebSockets** for **live stock price updates**, enabling efficient market exploration.
- Developed an interactive **community space** for users, implementing **CRUD** operations for posts and user profiles.
- Secured user authentication and authorization using **JSON Web Tokens (JWT)** and **bcrypt** for password hashing.
- Designed and deployed **RESTful APIs** on Render with a **Model-View-Controller (MVC)** architectural pattern.
- Hosted the frontend using Firebase for high availability and implemented **OAuth 2.0** for secure third-party login.

RollCall: A college attendance management App | *React Native (Expo), Notifee* 🔗 April 2025-Present

- Developed a **cross-platform** mobile application to streamline attendance management for college students.
- Implemented **push notifications** using **Notifee** to alert students about ongoing lectures, enabling seamless attendance marking.
- Designed an intuitive, student-friendly **UI/UX** using React Native to **simplify navigation** and attendance tracking.
- Published on Google Play Store, **achieving 200+ downloads** and active user engagement within the first release cycle.

VortexAI: A virtual Interview preparation platform | *React, NLP, FastAPI, Python* Feb 2025 – Present

- Conceptualized and currently developing **VortexAI**, a virtual interview preparation application that simulates **real-world interview experiences** with AI-driven scenarios.
- Engineered a dynamic virtual interviewer using **Natural Language Processing (NLP)** models to analyze candidate responses and provide real-time feedback.
- Implementing core functionalities through seamless **API integration** with a **FastAPI** backend to deliver AI-driven performance analytics.
- Focusing on a robust **UI/UX design** to provide intuitive navigation and a streamlined user journey through the platform.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML, CSS, Python

Frameworks & Libraries: React, React Native, Node.js, Express.js, Bootstrap, Tailwind CSS

Database: MongoDB, MySQL, Firebase Firestore

Platforms & Tools: GitHub, Git, Firebase, Figma, Render

NON-TECHNICAL SKILLS

Leadership Quality, Communication Skills, Proficient in English, Hindi.

EDUCATION

Sardar Patel Institute of Technology, Mumbai Nov 2022 – current

Bachelor of Technology in the branch of computer engineering

Prakash college, Mumbai 2020 – 2022

Higher Secondary Education (HSC)

80.60%

ACHIEVEMENTS

- 99.67 percentile** in MHT CET 2022 (state rank - 432)
