Education

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Engineering - **9.54 CGPA** (till now)

2022 – 2026

Mumbai, India

S. P. Jain Institute of Management And Research

Minor in Management And Finance

2024 – 2026

Mumbai, India

Relevant Coursework: Database Management System, Data Structures and Algorithms, Computer Architecture, Operating Systems, OOPS, System Design, Computer Networks, Big Data Analysis and Visualization.

Experience

Room-er (Start Up)

August 2024 – September 2024

Lead Developer, Founding Member

Mumbai, India

- Developed a **QR code-based web application** for hotels that boosted guest satisfaction by 35%.
- Led the creation of a high-speed hotel website using the **MERN stack**, achieving a **40%** reduction in load times through performance enhancements.

Procura Business

June 2024 – July 2024

Software Development Intern

Mumbai, India

- Maintained and integrated features, including driver blacklisting, in the Advanced Mobility App (available on the Play Store), resulting in a **37.5% reduction in crashes**.
- Translated Figma design into Flutter code for a new Fantasy Sports app, **streamlining development by 30%**.
- Constructed the **initial version 1.0** of Procura, a new **app - based on the Procura Connect website**, utilizing BLoC architecture and Chopper along with **Docker and Postman** used for API testing.

Projects

FlowSync - Automated Work Flow Management Platform | MERN | [Source Code](#)

February 2025

- Developed **FlowSync**, an automated workflow management platform with a **No-Code Drag and Drop Builder**, enabling users to create workflows with multi-step actions, conditional logic, and integrations with **5+ apps**, including Trello, G-Suite, and Slack.
- Implemented **Voice-Assisted Workflow Creation**, allowing users to create custom automation workflows using voice or text input, streamlining the workflow creation process.

LeafTrip - Eco-Travel Planner | MERN, Streamlit, Payment Gateway | [Source Code](#)

October 2024

- A MERN-stack platform with a **Streamlit-based personalized itineraries** and carbon footprint calculator, comparing the environmental impact of all 3 transportation modes.
- Integrated Razorpay payment gateway** for donations to support reforestation projects and eco-conscious travel, alongside a custom GPT-3.5 powered chatbot.

SkinAid - Skin Disease Detection App | Flutter, Firebase, TensorFlow, TFLite | [Source Code](#)

May 2024

- Developed TensorFlow (Keras)-based CNN and VGG16 model for accurate skin disease diagnosis using image and symptom data in ratio of **80:20** for diseases such as **Psoriasis, Eczema and Scabies**.
- Integrated a **Customized GPT-3.5** powered chat-bot using NLP and web scraping from websites such as WHO.
- Implemented Google authentication, location-based doctor recommendations, and achieved **85% model accuracy**.

Technical Skills

Programming Languages: Java, C, C++, Python (TensorFlow)

Technologies/Frameworks: HTML, CSS, JavaScript, Flutter, Next.js, React.js, Node.js, Express, MongoDB (MERN)

Developer Tools: MongoDB, MySQL, Firebase, Git, GitHub, Figma

Achievements / Extracurricular

- 4× Hackathon Winner** including the **Bit N Build International Hackathon**; Winner of the EmpowerHer Ideathon; also served as a **mentor** during a hackathon.
- Educator at Arihant Carmel Classes** - Taught to 11th-12th grade Science Students, mentored over 50+ students.
- Solved 650+ questions** on LeetCode (Top 10% - 1756), Codeforces (Pupil - 1378), and Codechef (Div 2 - 1730).
- Volunteered at NGO** - Abhyudaya, offering educational support to school children, and Naanhe Haath Foundation, with a total of 50+ hours of service.
- Top 1% score in Maharashtra HSC Result (92.17%)** , Government Scholarship of Rs. 8 Lakhs.
