Objective

I am a motivated and enthusiastic Computer Engineering student with a good understanding of full-stack development and problem-solving. I enjoy creating applications that are practical, easy to use, and make a positive difference for people. I am eager to join a forward-thinking tech team where I can use my skills, learn new things every day, work on exciting projects, and contribute to creating solutions that have a real impact in the world.

Education

- **Sardar Patel Institute of Technology** (Nov 2022-current)
B-Tech - Branch: Computer Engineering **CGPA: 8.5 / 10.0**
- **Thakur College of Science and Commerce** (2020-2022)
Higher Secondary Certificate **HSC: 72.3 %**
- **Poorna Prajna Education Centre** (Till 2020)
Secondary School Certificate **SSC: 93.2 %**

Relevant Course Work

- Data Structures
- Algorithms
- CCN
- DBMS
- Machine Learning
- Data Analytics
- NLP
- AI
- OOPS

Technical Skills

- **Languages & Database:** C, Python, Java (OOPS), Java Script, HTML, CSS, Dart, SQL
- **Frame Works & Libraries:** JQuery, Bootstrap, NodeJs, ReactJs, ExpressJs
- **Software & Tools:** Git, GitHub, VS Code, Tableau, QGIS

Projects

- ❖ **Book My Doc** **August-2025**
 - A full-stack web app for booking and managing doctor appointments with role-based access for patients, doctors, and admin.
 - Enabled secure JWT authentication, RESTful APIs, and online payment gateway integration for smooth transactions.
 - Designed a responsive, user-friendly interface for appointment scheduling, profile updates, and earnings tracking.
 - Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, REST APIs, Payment Gateway API
- ❖ **Jarvis Voice-Activated AI Assistant** **July-2025**
 - Built a Python-based voice assistant integrated with Google Gemini AI for real-time query handling.
 - Automated tasks like web browsing, playing music, and fetching top news using Speech Recognition, News API, and pyttsx3
 - Enabled natural voice interaction with command processing and AI-generated responses.
 - Tech stack: Python, pyttsx3, News API, Google Generative AI, Web Browser
- ❖ **S.H.E (Secure. Health. Empower)** **January-2025(ongoing)**
 - AI- ML Powered site for women safety, empowerment and health.
 - Features- Emergency SOS, Menstrual cycle tracker and PCOS predictor, Real-Time news, Safe Route Finder, Gynaecologist Finder.
 - S.H.E is a comprehensive platform that addresses women related major concerns.
 - Tech Stack: ReactJs, Supabase, EmailJS, Google maps API, News API

Certifications

- Deloitte Australia - Data Analytics (June-2025)
- Deloitte Australia - Technology (June-2025)
