PROJECTS

Discounted Cash Flow Valuation of Tesla

- Developed a DCF model using industry peers and historical data for delivery assumptions, and calculated WACC to determine the enterprise value, equity value, and price per share from Unlevered free cash flow.

Stock Analysis Report of Prism Johnson Ltd.

- Conducted a comprehensive equity analysis including bull/bear cases and valuation metrics.
- Estimated target price using historical financials, industry comparisons, and investment rationale.

Property & Casualty Insurance Case Study

- Analyzed coverage gaps across sectors and proposed modular micro-insurance, co-insurance models, and blockchain-based pools.
- Recommended AI-driven pricing, dynamic policies, and Safe Zone certifications to improve disaster risk coverage.

ACHIEVEMENTS

- **Finalist, StrategiTech 2025 – IEEE SPIT** – Placed in the top 10 in a national business case competition.
- **National Finalist, Fintech Olympiad 2024** – Selected among the top 100 out of 40,000+ participants nationwide.
- **Ranked 3rd in School – ICSE Class 10** – Received Merit Award for consistent academic excellence.

CERTIFICATIONS

- **J.P. Morgan Investment Banking Job Simulation** – Evaluated an M/A target using strategic and financial criteria, creating a tailored DCF model considering competitor bids and supply chain risks. Produced a concise 2-page company profile report and auction summary for the target.
- **Financial Markets – Yale University (Coursera)** – Covered fundamentals of stock markets, risk management, and behavioral finance.
- **Accounting Fundamentals – Corporate Finance Institute (CFI)** – Learned key concepts in financial statements, journal entries, and cash flow analysis.

EXTRA CURRICULARS

- **Subcommittee Member, Forum for Aspiring Computer Engineers** – Contributed to organizing and managing events and tournaments.
