2020

Secondary School Education, 90.6%

Mumbai

Skills and Technologies

Programming Languages: C++, Java, JavaScript, Python

Tools: Git/GitHub, Figma, Tableau

Databases: SQL, MongoDB

Frameworks: Node.js, React, Streamlit

Libraries: Bootstrap, Material-UI, Tailwind, ShadCN

Projects

AI Termsheet Validator | *Flask, React, MongoDB*

GitHub

- Developed a termsheet validator for fast and automated termsheet analysis
- Integrated automatic email retrieval for streamlined flow. Used GroqCloud APIs for effective analysis of documents
- Implemented document version control to ensure proper tracking of changes in different document versions

CycleShare - Cycle Rental Platform | *React, Node, Express, MongoDB*

GitHub

- Created an access point using a Node.js-Express server to streamline rental processes for cycles.
- Integrated HTTP requests from a MongoDB database to the Express server for efficient retrieval and storage of rental and cycle details.
- Developed key features for renting and lending cycles, enhancing user experience and operational feasibility.

GymBros Workout Tracker Website | *React, Node, Express, MongoDB*

GitHub

- Built a fitness/workout tracker website using MERN stack to display and track workout details and other fitness parameters.
- Added multiple functionalities such as workout and diet suggester based on user input.
- Used Clerk.JS for client-side authentication.

Certifications and Awards
