EDUCATION

Sardar Patel Institute of Technology, Mumbai

B.Tech - Computer Engineering

Sep 2022 – May 2026

8.99 CGPA

Vikas Junior Science College

Class XII - Higher Secondary Certificate (HSC)

May 2020 – Aug 2022

90.5 Percentage

WORK EXPERIENCE

Barclays

Summer Technology Intern

June 2025 – August 2025

Pune, India

- Developed and deployed "EagleEye" a centralized OpenShift monitoring dashboard , providing a unified, side-by-side comparison of the 2 data centers to streamline deployment verification.
- Engineered a real-time monitoring solution by integrating the OpenShift Watch API with Server-Sent Events (SSE), eliminating inefficient polling and enabling engineers to instantly view live updates on pods, deployments, and configs.
- Designed a comprehensive interface to display and compare key metrics, including ResourceQuotas (CPU requests/limits), and pod logs, using color-coded indicators to immediately flag discrepancies between environments.

RELEVANT COURSEWORK

- Algorithms Design
- Database Management
- Operating System
- Computer Architecture
- Data Structure
- Computer Networks
- Discrete Structures

PROJECTS

SSC Marksheet Automator

- Developed an automation to batch-download SSC marksheets from an official examination portal. The script parses student credentials from an Excel file , automates form submission, and saves the results as named PDF files, significantly reducing manual effort for teachers.

Time Complexity Analyzer

- Developed an application that inputs code and analyzes time complexity by measuring execution times for various input sizes, providing real-time performance data for optimization..
- Integrated automatic detection and reporting of Big-O notation for code snippets, enabling developers to quickly assess and improve algorithm efficiency

TECHNICAL SKILLS

Languages: C, C++, SQL

Developer Tools: Git, GitHub

CODING PROFILES

- [Codeforces \(Specialist - 1418\)](#)
- [LeetCode \(1442\)](#)
- [CodeChef \(3 Stars - 1625\)](#)

ACHIEVEMENTS & EXTRA-CURRICULARS

- Secured global rank of 56 in Codechef Starters 163 Contest
- Conducted a geospatial analysis of land cover change in Navi Mumbai using QGIS, co-authoring a research paper on the findings which is currently under peer review
- Solved 800+ coding problems across multiple online platforms.
- I actively participated in the **Robin Hood Army** , an NGO dedicated to serving the underprivileged.

POSITIONS OF RESPONSIBILITY

- Sports Committee of SPIT** – Contributed to developing front-end interfaces for websites designed to promote and manage inter-college sports events.
- Training and Placement Coordinator, SPIT Mumbai** – Coordinated recruitment activities, facilitated communication between students and recruiters, and supported peers in placement preparation.
