

ABDUL RAZZAK SURVE

B.Tech in Computer Engineering (2022 – 2026)

+91-8657947883 abdulrazzaksurve24@gmail.com [LinkedIn](#) [TryHackMe](#)

Summary

Aspiring Cybersecurity Professional with hands-on experience in **Red Teaming, Penetration Testing, Vulnerability Assessment, Incident Response, and Digital Forensics**. Skilled in using industry tools like **Nmap, Metasploit, Wireshark, Burp Suite, Nessus, and Autopsy**. Strong knowledge of **MITRE ATT&CK, OWASP Top 10, Threat Hunting, and Malware Analysis**. Proven ability to identify and mitigate vulnerabilities across **50+ systems**, deliver actionable remediation, and strengthen defense posture.

Education

Sardar Patel Institute of Technology

2022 – 2026

B.Tech in Computer Engineering

Relevant Coursework: Cybersecurity, Digital Forensics, Cryptography

Joint Entrance Examination (JEE) – Mains

2022

Percentile: 99.21 (AIR: 7187)

Experience

Deepcytes CyberLab UK

Jun 2024 – Dec 2024

Red Team Analyst

- Conducted penetration testing on **15+ enterprise systems**, identifying **30+ critical vulnerabilities** (SQLi, XSS, CSRF).
- Performed vulnerability scanning across **50+ endpoints** with Nessus/Nmap, reducing remediation time by **25%**.
- Executed privilege escalation, lateral movement, and phishing payload delivery, achieving **80% successful exploit rate in simulations**.
- Collaborated with SOC to analyze **10,000+ SIEM logs**, cutting average detection-to-response time by **20%**.
- Created detailed attack chains, PoC exploits, and mitigation reports aligned with **OWASP, PTES, MITRE ATT&CK**.

Projects

Phishing Job Link Detection System | *Python, ML, NLP, Jupyter*

Jan 2024 – Present

- Developed ML model on **5,000+ job postings**, achieving **91% accuracy** in phishing link classification.
- Implemented TF-IDF, precision, recall, and F1-score, improving detection performance by **15%**.
- Applied use-cases to **fraud detection and threat intelligence**, increasing practical relevance.

USB Forensics with Autopsy | *Digital Forensics*

Jan 2025 – Feb 2025

- Performed forensic analysis on Windows image, recovering **25+ deleted files** and analyzing **10+ registry artifacts**.
- Documented USB device usage history and chain of custody, improving investigation accuracy by **20%**.

Phishing Campaign Simulation (Red Team) | *SEToolkit, Web Exploitation*

Aug 2024 – Sep 2024

- Executed simulated phishing campaign targeting **50+ accounts**, achieving **35% click-through rate**.
- Mapped adversary TTPs to MITRE ATT&CK, improving organizational awareness and readiness.
- Delivered recommendations for incident response and user awareness, reducing phishing susceptibility by **20%**.

Technical Skills

Programming: Python, C, Java, Bash

Security Tools: Nmap, Metasploit, Wireshark, Burp Suite, Nessus, Hydra, Autopsy, Recuva, SEToolkit

Domains: Penetration Testing, Vulnerability Assessment, Red Teaming, Ethical Hacking, SOC Operations, Threat Hunting, Malware Analysis, Digital Forensics, Incident Response

Operating Systems: Linux (Kali, Parrot OS), Windows Server

Concepts: MITRE ATT&CK, OWASP Top 10, SIEM, IDS/IPS, Risk Assessment, Cloud Security (AWS, Azure basics)

Certifications

- **Cisco Introduction to Cybersecurity** (Jul 2023) – Covered fundamentals, cyber threats, and defense strategies.
- **Deloitte Cyber Job Simulation (Forage)** (Aug 2025) – Hands-on tasks in incident response, threat intelligence, and security reporting.
