EDUCATION

Sardar Patel Institute of Technology <i>Bachelor of Technology in Computer Engineering (CGPA - 8.1)</i>	Nov. 2022 – Jun 2026
DG Ruparel College of Science, Arts and Commerce <i>Maharashtra Higher Secondary School Certificate Examination</i>	Oct 2020 - Mar 2022

EXPERIENCE

Software Development Intern <i>SP Jain Institute of Management and Research</i>	Nov 2024 – Mar 2025 <i>Hybrid</i>
- Developed NovaScholar, a scalable Generative AI-driven learning platform leveraging large language models (LLMs) to deliver personalized QnA, real-time polls, periodic quizzes that enhanced student engagement and provided actionable insights into participation and learning gaps. - Engineered end-to-end features across pre, in, and post-class workflows, including session analytics, and real-time classroom interactions empowering instructors to adapt teaching strategies quickly based on data-driven feedback. - Led a pilot deployment for 20+ students to validate performance and usability, iterating on feedback to ensure a seamless, stable experience and laying the groundwork for future scalability and enhancements.	

SKILLS

Languages: C, C++, Python, Java, JavaScript, HTML, CSS
Frameworks and Tools: React.js, Node.js, Flask, Streamlit, MongoDB, MySQL, Git/GitHub, Figma, VS Code
AI/ML and Data: Gemini, CrewAI, Pandas, NumPy
Business and Productivity Tools: Microsoft Excel, PowerPoint, Word

CERTIFICATIONS

Foundations of Project Management — Google
Agile Project Management — Google
Certified Risk Management FMEA ISO 31000 — Six Sigma Academy Amsterdam (SSAA)

PROJECTS

EmFlow <i>React.js, Node.js, MongoDB, Figma</i>	Sep 2024 – Dec 2024
- Developed a collaborative task management platform with RBAC, real-time progress tracking, and tickets creation and assignment to improve team efficiency. - Designed interactive dashboards for managers assign tasks, create events, and track ticket resolution status using modular components - Integrated event scheduling and real-time notifications, enhancing coordination, and implemented JWT-based authentication to secure workflows for Admins, Managers, and Employees.	
Revify <i>Python, CrewAI, Gemini</i>	Jan 2025 – May 2025
- Built an AI-driven review summarization pipeline leveraging RAG and Gemini 1.5 Flash to extract key product features, aiding customer decision-making and product analysis. - Built a JSON-Pandas batch processing workflow for feature extraction, summary generation, analytics generation and benchmarked outputs using ROUGE and BERTScore-F1 metrics	
FilmInsight <i>React.js, Flask</i>	Feb 2024 – Apr 2024
- Created a content-based movie recommendation engine by extracting features such as genre, crew, and synopsis to enhance recommendations. Preprocessed and cleaned large datasets (TMDb 5000+) to drive accurate similarity detection and improve memory efficiency. - Built an interactive UI with a responsive grid layout, enabling search-based input and returning high-confidence recommendations benchmarked at 90% against Google Search.	

POSITIONS OF RESPONSIBILITY

Head of Creatives <i>Oculus SPIT</i>	Dec 2023 – May 2024
- Led a 5-member team to plan and execute 10+ promotional videos under tight deadlines, boosting event visibility and engagement across social platforms. - Coordinated with department heads to convert content requirements into actionable tasks and ensure timely execution.	
Head of Marketing <i>Forum For Aspiring Computer Engineers (F.A.C.E SPIT)</i>	Dec 2023 – May 2024
- Spearheaded fundraising initiatives, creating sponsorship pitches and delivering presentations that secured funding for major events (e.g. FACE CUP, World CUP Auction). - Analyzed campaign performance to fine-tune marketing strategies and achieve funding targets while maintaining close communication with sponsors and team members.
