EDUCATION

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science and Engineering (AI/ML) – CGPA: 9.2

Nov 2022 – June 2026

Andheri West, Mumbai

S.P. Jain Institute of Management and Research

Minor in Management Studies

Jan 2024 – Dec 2025

Mumbai, India

RELEVANT COURSEWORK

- | | | | |
|-----------------------|---------------------|---------------------|---------------------|
| • Data Structures | • Algorithms & OOPS | • Operating Systems | • Computer Networks |
| • Database Management | • Machine Learning | • Data Analytics | • Explainable AI |

Achievements

- **CodeUncode 2025 Winner; Top 10** in both **Regional and State Finals** of the Competitive Programming Competition.
- **Runner-Up** in the **JPMorgan Chase Code for Good 2025** hackathon; built a platform to connect elderly and underserved individuals with caregivers for the **SHATAM** Foundation.
- Reached **Expert** rank on **Codeforces** with a peak rating of **1730**. [Codeforces](#)
- Achieved **Rank 339** in **Codeforces Round 1019 (Div. 2)**.

WORK EXPERIENCE

Mahindra and Mahindra | Data Science Trainee

June 2024 – July 2024 (On-site)

- Worked on image stitching and visualization for advanced mapping projects.
- Trained and implemented Mask R-CNN for precise object detection and instance tracking in complex visual data.
- Explored and applied computer vision techniques for large-scale dataset visualization.
- Enhanced front-end styling and integration with Flask and CSS to improve user interface and experience.

PROJECTS

SPIT FestHub – College Event Management Platform | Django, Bootstrap, JavaScript, HTML/CSS

- Developed a role-based platform for SPIT to centralize event discovery, registration, and tracking with dedicated dashboards for students, organizers, and admins.
- Implemented features like event calendar view, one-click registration, pinned event highlights, and filtering by committees or event type.
- Integrated engagement tools including announcements, feedback collection, likes, and comments, tailored for secure internal use.

UNIVERSE – Student Productivity & Collaboration Platform | Django, Django Channels, Bootstrap, WebRTC

- Built a full-stack web platform for students to discover peers, track study goals, and collaborate in real time via chat, notes, and shared tasks.
- Integrated real-time messaging and video calling using Django Channels and WebRTC for seamless peer interaction.
- Developed a modular architecture with features like to-do lists, collaborative notes, friend management, and a subject-wise resource library.

SKILLS

Languages / Databases: Python, C, JS, MySQL, SQLite, PostgreSQL

Technologies : Django, Flask, HTML5, CSS3, Bootstrap

Developer Tools : Git, GitHub, Postman, Figma, VS Code

Soft Skills : Teamwork, Adaptability, Collaboration, Problem Solving

CERTIFICATIONS

Python for Data Science, AI and Development
