EDUCATION

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science and Engineering (AIML)– CGPA : 8.57

Nov 2022 – June 2026

Andheri West, Mumbai

EXPERIENCE

VR Tech Solution | Software Developer Intern

April 2025 – Present

- Engineered and launched the company's first responsive website using React.js and Tailwind CSS, developing over 50% of the core front-end and increasing user engagement.
- Implemented **seamless client-side routing** and **SPA navigation** using reusable **React components**, while collaborating with stakeholders to **gather requirements**, incorporate **feedback**, and deliver **high-quality features** under tight deadlines.
- Conducted rigorous peer code reviews and participated in daily stand-ups, identifying and resolving potential bugs and promoting adherence to best practices in an Agile workflow.

SKILLS

Languages / Databases: Java, JavaScript, SQL, MySQL, PostgreSQL, MongoDB

Technologies : Next.js, React.js, Node.js, Express.js, Zustand, Vercel

Developer Tools : Git, GitHub, Postman, VS Code

PROJECTS

SAMARTH | ReactJS, Supabase, IPFS 🔗

Ongoing

- Designed and developed a secure, full-stack complaint portal using **React** and **Supabase**, integrating **IPFS** to guarantee 100% tamper-proof evidence storage for all registered cases.
- Automated evidence validation by implementing a multi-stage image analysis pipeline that uses **edge detection** and **Fourier analysis** to detect digital tampering
- Gathered insights from **5+ active-duty officers** to define requirements, then created a role-based access control with real-time alerts—scaling secure, data-driven policing across Mumbai via agile sprints and Work Breakdown Structure.

GYMBROS | ReactJS, Express.js, PostgreSQL 🔗

Oct 2024

- Crafted a **full-stack fitness application** enabling users to track workouts, monitor parameters, and receive personalized health recommendations.
- Designed and implemented the flagship feature: an **interactive human body UI** allowing users to click on muscle groups and access **targeted workout videos**.
- Built a tool to generate custom workout routines and diet plans tailored to each user's individual fitness profile.
- Modeled a relational **database schema** to manage user profiles, detailed workout histories, and fitness progression data.

DIGITALDAIRY | Next.js, PostgreSQL, Zustand, Vercel 🔗

June 2024

- Developed a **full-stack web application** to **streamline dairy operations** and ensure **transparency** in **farmer–center interactions**, significantly **reducing manual data entry errors** by **digitizing 100% of the previously manual workflow**.
- DigitalDiary** enables dairy managers and farmers to **seamlessly record, track, and manage milk transactions**, and profile through an **intuitive dashboard**, fostering **transparency, trust**, and **operational efficiency** in the **dairy supply chain**.
- Secured the application with a zero-compromise authentication system using **JWT** and **HTTP-only cookies**, and deployed on vercel.

ACHIEVEMENTS

- Achieved **Knight** rank on LeetCode with a peak rating of **2050 (top 2% globally)**. [LeetCode](#)
- Reached **Specialist** rank on Codeforces by achieving a peak competitive rating of **1427**. [Codeforces](#)
- Secured **140th** rank in LC Weekly Contest 438 among 31,000+ participants.
- Secured **357th** rank in LC Weekly Contest 451 among 25,000+ participants.
- Ranked **2015th** globally in Codeforces Round 1007 (Div. 2) among 36,000+ participants.
- Maintained a **450+ day streak** and earned **23 badges** on LeetCode for consistency and excellence.
- Solved **1000+ problems** on LeetCode and Codeforces, strengthening DSA proficiency.
