Education

Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology, Mumbai
B.Tech in Computer Science and Engineering(AIML)

Nov 2022 – May 2026

Work Experience

Hexamad Startup Tech Fellow,

April 2025 – Present

- Co-led strategy and development for an influencer marketing, UGC, and brand collaboration platform—shaping 70% of MVP features, and engineering the full-stack MVP (Flutter Django REST Framework) with a focus on modularity, clean UI, and performance.
- Drove 3+ iterative prototypes, translating early concepts into functional features while aligning dev efforts with evolving user needs and product vision.
- Tools Used: Flutter, Dart, Python, Django, Django REST Framework, PostgreSQL

VR Tech Solutions

April 2025 – Present

Software Developer Intern

- Co-developed and deployed the organization's first responsive website, handling 50% of core tasks and boosting engagement and visibility.
- Led planning (70%) of a vehicle detection and tracking ML model.
- Contributed regularly to strategy and technical discussions with actionable inputs on feasibility and improvements.
- Tools Used: Tailwind, React.js

Projects

Elixir

- Elixir is a mobile platform to voice your opinion and have a better informed opinion about any topics. The topics are well divided into categories for user's convenience. Users can create their profile and can follow the people they want. The opinions are in video format and an overview and news for each topic will be available for those who are new to the topics. Developed it in a team of 2.
- Tools Used: Flutter Dart Python Django Django Rest Framework PostgreSQL WebRTC Web Sockets Google Cloud

InvestmentHub

- **Built a centralized investment management system** with real-time financial insights, virtual trading via a stock assembly interpreter, an AI-driven financial agent for market data and recommendations, and a news sentiment analysis tool. Included an SIP calculator, interactive visualization dashboard, and a financial learning hub with articles, videos, and e-books for all skill levels. Developed in a team of four.
- Tools: React.js, Django, Django Rest Framework

HomeBazaar

- Built a feature-rich platform with dual reward system for sellers and consumers to boost engagement. Integrated real-time chatbot support, 360° product views for better decisions, and multi-language support for wider reach. Added an eco-friendly product tracker to align with sustainability goals. Developed in a team of four.
- Tools Used: HTML, CSS, JS, React, Tailwind, Python, Django, DRF

Technical Skills

Languages:	C++, Python, JavaScript, Dart, SQL, HTML, CSS
Frameworks:	Django, Django REST Framework, React.js, Flutter
Databases & Cloud:	PostgreSQL, Google Cloud Platform (GCP)
Developer Tools:	GitHub, Docker, Android Studio, Linux, WebRTC
CS Fundamentals:	Data Structures, Algorithms, OOPS, Operating Systems, DBMS, Computer Networks, Data Analytics

Position of Responsibility

Public Relations Head at Oculus, the annual fest of college	<i>Aug 2023 – July 2024</i>
Social Media Handler and PR Head at IPL Auction, flagship event of Oculus	<i>Dec 2023 – July 2024</i>
