EDUCATION

Sardar Patel Institute of Technology, Mumbai

Nov 2022 – May 2026

B.Tech in Computer Science & Engineering (Artificial Intelligence and Machine Learning)

Pursuing

WORK EXPERIENCE

Hexamad Digital

May 2025 – Present

Startup Tech Fellow (Product: GoSwipe)

Mumbai, India / Hybrid

- Developing solutions within "Goswipe" to address critical challenges faced by content creators and brands.
- Actively involved in the full product lifecycle: research, design, UI/UX planning, prototyping, coding, testing, and deployment.
- Collaborating effectively with team members, participating in development processes, and maintaining project documentation.

VR Tech Solutions

Apr 2025 – Present

Software Development Intern

Mumbai, India / Remote

- Developing a drone-based vehicle tracking system to enhance real-time monitoring and operational efficiency.
- Designed, developed, deployed, and currently maintain the company's official portfolio website.

ROLES AND RESPONSIBILITY

ACSES, Sardar Patel Institute of Technology

Aug 2024 – Present

Tech-Head

Mumbai, India

- Managed the official ACSES SPIT website and led technical operations for major college events including Hackathon, CodeX, and CodeItOut.
- Key responsibilities included designing coding problems, developing solutions, managing contest platforms, and overseeing certificate distribution.

PROJECTS

Elixir | *Flutter, Django REST Framework, PostgreSQL, WebRTC, GCP* | **Role:** Backend

- Engineered a Flutter-based social media app on Google Cloud for real-time opinion sharing and live debates; successfully pitched to industry stakeholders and received an investment offer.
- Features: Opinion Reels for short video takes, interest-based matching for 1-on-1 video debates, and in-app chat for seamless engagement.

InvestmentHub | *AI Agents, Django REST Framework, React.js, PostgreSQL* | **Role:** Backend

- Developed a centralized investment management platform with a virtual trading environment and an AI financial agent providing real-time market data, news, and company financials.
- Includes sentimental news analysis, SIP calculator, an interactive visualization dashboard, and a learning section for financial literacy.

Practice Projects | **Role:** Backend

- Academic Collaboration Platform: Facilitating project sharing and teamwork among students.
- College Fest Management Platform: Streamlining event organization and participation.
- E-commerce for Home Vendors: Enabling local artisans and sellers to reach a wider market.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, Dart, SQL, HTML, CSS

Frameworks: Django, Django REST Framework, React.js, Flutter

Databases & Cloud: PostgreSQL, Google Cloud Platform (GCP)

Developer Tools: GitHub, Docker, Android Studio, Linux, WebRTC

CS Fundamentals: Data Structures, Algorithms, OOPS, Operating Systems, DBMS, Computer Networks, Distributed Computing, Data Analytics

ACHIEVEMENTS EXTRA-CURRICULARS

- Pitched and secured an investment offer for startup project "Elixir" in the "Shark Tank Trinity" event.
- Achieved 2nd Runner-Up in "Krunch – The Analytics Event" organized by IIT Madras.
- Codeforces Specialist with a maximum rating of 1509.
- Solved 1000+ programming problems on various online judges including LeetCode, Codeforces, and CodeChef.
