Education

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science and Engineering (AIML)

Nov 2022 - 2026

Mumbai, India

Experience

CartBinder (V R Enterprises)

May 2025

Data Analyst Intern

Mumbai, Maharashtra

- Analyzed eCommerce performance using **OpenCart dashboards**, identifying **top-selling products, regional sales distribution, and customer patterns** to support strategic business decisions.
- Optimized **MySQL queries** for sales and customer insights, automating key metrics reporting and improving **data retrieval efficiency by 40%**.
- Built and debugged responsive **PHP-based UI dashboards** using HTML5, CSS3, and jQuery, ensuring accurate **real-time visualization** of sales, orders, and stock KPIs with **100% consistency**.

Projects

Modern Data Warehouse (Medallion Architecture) [Skills: SQL Server, SSMS, ETL, Data Modeling] — 🐙 Jun 2025

- Designed and implemented a modern data warehouse using **Medallion Architecture (Bronze, Silver, Gold layers)**, consolidating ERP and CRM data into SQL Server, improving data accessibility and analytical readiness.
- Built **end-to-end ETL pipelines** for batch ingestion, data cleansing, and normalization; modeled data into **star schema**, reducing **reporting time by 40%** and delivering automated SQL-based analytics on customer behavior and sales trends.

StockZenPro – AI-Powered Inventory Management System [Skills: React.js, Node.js, MongoDB, ML] — 🐙 Jul 2024

- Developed full-stack inventory management platform with **RESTful APIs, JWT authentication**, real-time tracking via Zustand and React Query, automated reordering workflows, and MongoDB database modeling.
- Implemented **AI-powered demand forecasting using Gemini API** and interactive analytics dashboard with **Recharts, TailwindCSS**, featuring automated purchase order management and cost optimization insights.

SignSense – Real-Time Sign Language Translator [Skills: Machine Learning, Computer Vision] — 🐙 May 2024

- Developed a **hand gesture recognition system** translating sign language into text using **real-time computer vision (OpenCV)** and landmark detection (MediaPipe).
- Trained a **Random Forest Classifier** on custom dataset achieving **92% accuracy**, enabling accurate live gesture predictions with responsive UI using React and Streamlit.

AI-Powered Term Sheet Validation System [Skills: FastAPI, React, MongoDB, NLP] — 🐙 May 2025

- Built an **end-to-end platform** automating financial term sheet validation, reducing manual errors and improving **compliance accuracy to 92%** using OCR, NLP, and scalable MongoDB storage.
- Designed **interactive dashboard** with JWT authentication featuring **risk scoring, discrepancy detection, and compliance tracking** across regulatory frameworks (MiFID II, FCA, SEC).

Technical Skills

Programming Languages: C, C++, Python

Web Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, PHP

Databases: MySQL, SQL Server, MongoDB

Machine Learning: Pandas, NumPy, Matplotlib, Scikit-learn, OpenCV, MediaPipe

Tools & Platforms: Git, Github, Jupyter Notebook, Power BI, Tableau, Excel

Coursework: Data Structures and Algorithms, Object Oriented Programming, Database Management System

Extracurricular & Achievements

HERE India Hackathon 2025 Winner - Geospatial innovation **ML-based detection solution** May 2025

SPIT-Hackathon Top-12 - Made it to Top-12 in this National-Level Hackathon held at SPIT 2025

DataForge Hackathon Top 8 - Ranked in the **Top 8** in the DataForge Hackathon 2025

Google Cloud Computing Foundations Certification - Completed certification through GDSC 2024

Marketing Head (Oculus IPL Auction) - Directed and led a 15-member team to execute 250+ participant event, and market key sponsorships and ensured seamless coordination for successful delivery 2024
