## EXPERIENCE

**IDMS Infotech, Software Development Intern** 06/2024

- Designed and maintained responsive React.js front-end interfaces, ensuring cross-browser performance.
- Collaborated with design and product teams to enhance UI/UX for seamless user experiences.

## PROJECTS

- Mumbai Food Scene Analysis, (Python, Scrapy) (GitHub)**
- Scraped 1050 Mumbai restaurant records from Zomato using **Scrapy** and conducted **EDA** with **Python (pandas, numpy)**, identifying KPIs like average ratings (4.0–4.6) and popular cuisines.
  - Visualized restaurant trends with **matplotlib histograms**, and **geopandas maps**, highlighting North Indian cuisine and Casual Dining dominance.
- Customer Churn Analysis, (SQL, Python, Tableau)(Github)**
- Conducted customer churn analysis for a bank using **SQL** to join datasets and uncover insights, with **Python** for in-depth **EDA**, including distribution and correlation analysis to identify high-risk churn drivers.
  - Built an interactive **Tableau** dashboard to visualize customer demographics, account details, and transaction behavior, enabling enabling **strategic risk identification** and proactive retention planning.
- International Debt Analysis, (SQL, Power BI) (GitHub)**
- Developed interactive **Power BI** dashboards and used **SQL** for querying World Bank debt data (1970–2015) for 124 countries, visualizing KPIs like total debt (approx \$3.08T) and top debtor nations.
  - Analyzed debt metrics across indicators, identifying trends such as middle-income countries' dominance in cumulative debt using **SQL-driven data extraction**.
- AlphaSage, (Flask, MongoDB, ChromaDB, AutoGen, Mistral OCR, LM Studio, ReactJs) (GitHub)**
- Built an AI platform using Groq API, LM Studio, and yfinance to automate Indian equity research, parsing 200+ filings into ChromaDB with 90% accuracy and visualizing insights via React dashboards.
  - Selected to present this project at **JPMC Innovation Week 2025**, demonstrating scalable financial insights with real-time querying.
- Blinkit Analysis, (Microsoft Excel) (Dashboard)**
- Analyzed Blinkit's sales, satisfaction, and inventory using **Excel**, visualizing KPIs (Total Sales, Average Sales, Items, Rating) for optimization insights.

## TECHNICAL SKILLS

|                                                                                                                                        |                                                                                                                              |
|----------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>Languages and Techstack</b><br>C++, Java, Python(Basics), SQL, HTML, CSS, ReactJs                                                   | <b>Libraries</b><br>Pandas, NumPy, Matplotlib, Scikit-learn, Seaborn, Plotly                                                 |
| <b>Developer Tools</b><br>Git, VS Code, Tableau, Figma, Postman, Power BI, MS Excel, MS powerpoint, MS Word, MS outlook, SQL Workbench | <b>Relevant Courseworks</b><br>Database Management, Software Engineering, User Exeperience Design, Human Machine Interaction |

## Position Of Responsibility

**Chairperson (WIE-IEEE)** 09/2023 – 09/2024

- Led events, workshops, and mentorship programs to empower women in engineering, fostering a supportive and diverse STEM community.
- Increased women's participation in tech through dedicated efforts in community building and mentorship.

## ACHIEVEMENTS

- Analytics Ace (ISBM Pune), Winner**  
Secured 1st place in a national-level data analysis case study competition among 250+ teams.
- Smart India Hackathon 2024, Finalist**  
Selected among the top 5 teams in our problem statement out of 86,000+ participating teams nationwide.
- Odoo Hackathon 2025 (SVNIT Surat), 2nd Runner-up**  
Achieved 3rd position among 600+ competing teams in a product innovation hackathon.
- Venture Nexus (NMIMS-Mumbai), 2nd Runner Up**  
Secured 3rd place among 100+ teams in a case study competition by developing an innovative product and revenue model.

## EDUCATION

**Bachelor of Technology in Computer Science And Engineering** 2026 | Mumbai  
(Specialization in Artificial Intelligence And Machine Learning),  
Sardar Patel Institute of Technology, Mumbai (CGPA till 5th sem : 7.73)
