EDUCATION

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science and Engineering

November 2022 – present

CGPA: 8.11/10

WORK EXPERIENCE

SmowCode

Software Development Intern

July 2024 - August 2024

Mumbai, IN

- Built a **transpiler in JavaScript** to convert Smowcode's internal graphical scripting language (.smow) into valid, executable JavaScript code.
- Implemented logic to **translate diverse control-flow nodes** (e.g., for, while, event handlers) by **mapping graphical definitions** to corresponding JS syntax.

PROJECTS

Virtual Stock Market | React, Express, WebSockets, PostgreSQL | [🔗](#)

- Engineered a full-featured virtual **stock trading platform** with **stock price simulation**, **leaderboard**, and **news simulation dynamics**.
- Employed **WebSockets** for live updates and Supabase hosted **PostgreSQL** for fast, reliable state management.
- Built for a competitive **college event**, successfully **deployed** and **used in production across 2 editions with 100+ concurrent users**.

Blitz Cup | React, Express, Flask, PostgreSQL, RabbitMQ, Docker | [🔗](#)

- Designed and built a **1v1 competitive programming platform** enabling real-time **Codeforces-based matches** with **automated winner tracking**.
- Automated match flow by integrating the **Codeforces API** and implementing a scalable **RabbitMQ-based** queuing system for concurrent result polling.
- Deployed in production** during a college tournament with **up to 64 concurrent users**, delivering low-latency updates and stable performance.

Study Sync | React, Express, MongoDB, Langchain | [🔗](#)

- Built a collaborative study hub enabling **real-time chat**, **AI-assisted document generation**, and **group productivity** through an **intuitive interface** for peer discovery to enhance social interaction.
- Implemented a **live collaborative editor** with saving and added **automated email reminders** for assignment deadlines.

Ask Genie | React, Node.js, MongoDB, Pinecone, Neo4j | [🔗](#)

- Developed an **internal QnA platform** to centralize and streamline **knowledge retrieval** across GitHub, Wikis, and company documentation.
- Integrated Neo4j and graph-based Retrieval-Augmented Generation (**RAG**) to index and query entire public GitHub repositories.
- Implemented rich community features including **moderation tools**, **re-posting**, **likes**, **comments**, and **expert-verified answers** to foster structured knowledge sharing.

ACHIEVEMENTS

1st Place in AIML Domain at SPIT Hackathon

February 2025

2nd Place at Datathon - KJSCE

February 2025

2nd Place at AI-Quest - Techfest, IIT-Bombay

December 2024

Top 5 Finalist at SIH'24

December 2024

2nd Place – Minithon

October 2024

2nd Place among 52 teams, SE Hackathon, CSI-SPIT

March 2024

4th Place among 130 teams, Recursion 5.0 Hackathon, RGIT

March 2024

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL

Frontend: React.js, React Native, Tailwind CSS

Backend: Node.js, Express.js, PostgreSQL, MongoDB

Tools/Platforms: Git, Docker, Render, Vercel, AWS

Miscellaneous: Blockchain, Problem Solving, Langchain, Canva, Figma

POSITIONS OF RESPONSIBILITY

Technical Head

August 2024 - April 2025

IEEE SPIT

- Led a team of 4 as **Technical Head for IEEE-SPIT**, organizing a college tech fest featuring a **hackathon** and the **“Blitz Cup” Competitive Programming event**—overseeing **planning**, **coordination**, and **execution** from concept to delivery.
- Architected and developed a **full-stack contest platform for Blitz Cup**, enabling real-time participation for 60+ concurrent users, ensuring **performance**, and **seamless user experience**.
