Education

Degree/Certificate	Institute/Board	CGPA/%	Year
B.Tech., CSE	SPIT, Mumbai	7.40	Aug '22 - Jun '26
Senior Secondary	HSC	93%	Mar '21
Secondary	SSC	91.4%	Mar '19

Professional Experience

- Investment Research Technology (R&D) - Summer Intern, Russell Investments** *MAY '25 - JUL '25*
 - Conducted **multi-factor modelling** using **quant signals**, **z-scores**, **risk overlays**; contributed to strategy alpha, **factor risk premia**, **cross-sectional testing**, **performance attribution**, **heuristics**, and **exposure decomposition**.
 - **Revamped direct investing model**: migrated to **SQL Server**, integrated asset-level data, enabled **faster rebalancing**, real-time querying, and **90%+ improvement** in **backtest efficiency**, **scalability**, and **modularity**.
 - Automated **ESG exclusions workflow** by **collaborating** with PMs using **Py**, **SQL**, **Selenium**; streamlined **compliance logic**, boosted ops speed by **95%**, improved **traceability**, **governance**, and **reporting transparency**.
- Research Associate Intern, SPJIMR** *JAN '25 - MAY '25*
 - Automated financial statement parsing of **900+ annual reports** using **Py**, **Selenium**, **OpenPyXL**, **Gemini API**; applied **NLTK-based normalization** and **ML heuristics** for tagging, segmentation & KPI classification.
 - Executed **ratio modeling** and **financial statement structuring** for **150+ companies** using **ProwessIQ**; derived **20+ key indicators** on **capital structure**, **efficiency**, **coverage**, and **margins** for **regression-ready datasets**.
- Quant Intern (Research & Product), Quantinsti** *DEC '24 - FEB '25*
 - Designed **algorithmic trading systems** for equities and crypto using broker APIs; implemented **Python-based strategies** with **volatility filters**, **technical indicators**, **momentum triggers**, and **robust signal-generation logic**.
 - Led **alpha research**, **strategy tuning**, and **multi-period backtesting**; published **quantitative blogs/glossaries** for EPAT students with **performance benchmarks**, shared among **portfolio managers**, **quants**, and **analysts**.

Key Projects

- Market Impact Modeling (Crypto Microstructure)** *JUL '25*
 - Modeled $\Delta P = \lambda \cdot Q$ using **tick-level data**; ran **VAR**, **Kyle λ** , **norm'd Q**, segmented λ by volume & volatility.
- Prepayment Risk & Cash Flow Modeling (Fixed Income)** *JUL '25*
 - Modeled **MBS cashflows** using **PSA**; ensembled **ML models** for **prepay & default risk**, with **86% accuracy**.
- Financial Modeling & Scenario Analysis** *AUG '24 - SEP '24*
 - Built **Excel-based DCF with IRR, NPV**, **scenario/sensitivity tables**; improved **capalloc forecasts** by **15%**.
- Portfolio Optimization & Derivatives Pricing (Equity-Derivatives)** *JUN '24*
 - Optimized portfolios using **MPT/CAPM**; priced options via **BSM-Greeks in Py**; Sharpe ratio up by **20%**.

Positions of Responsibility

- Founding Member & Secretary, Finance and Economics Club (FEC), SPIT** *SEP '24 - PRESENT*
 - **Founded & led** 56-member finance club; authored 10 equity reports for CXOs, driving **investment theses**, **DCF modeling**, **valuation narratives**, **strategic capital deployment**, and **competitive market differentiation**.

Relevant Skills

- Tools**: Python, SQL, MS Excel, PowerPoint, ProwessIQ, Jupyter Notebook, Tableau
- Technical & Quantitative Skills**: Quantitative Trading, Feature Engineering, Factor Research, Factor Modelling, Backtesting, Price Impact Estimation, Portfolio Optimization, Performance Monitoring
- Soft Skills**: Execution Ownership, Problem Solving, Cross-Functional Execution, Code Documentation, Leadership, Stakeholder Collaboration, Curiosity, Teamwork, Communication Skills

Notable Certifications

- CFA Institute**, Chartered Financial Analyst (CFA), Level 1 (Achieved 90+ Percentile) *AUG '24*
- GARP Institute**, Financial Risk Manager (FRM), Part 1 (Scored 1st Quartile in 4/4 Modules) *MAY '24*
- JP Morgan Chase**, Quantitative Research & Investment banking job simulations *JUL '25*
- CFI**, Equity, Derivatives & Fixed Income Fundamentals, Options Hedging & Trading *JUL '25*

Awards & Recognition

- Stage 1 – 2025 | Top 20% (1,456 out of 82,000)** globally in the **International Quant Challenge**, WorldQuant
- National Finalist** | Ranked in the **Top 10 out of 270** teams in the **Finnovate Ecovis Challenge**, SDA Bocconi
- Finalist** | Ranked in the **Top 7 out of 90** teams in **Abhirva Case Study competition**, organized by NMIMS
