Education

Sardar Patel Institute of Technology, Mumbai

2022 - 2026

Bachelor of Technology - Computer Science and Engineering (AIML) : CGPA - 8.59

Mumbai, Maharashtra, India

Matoshree Prabhodhinee Jr. College of Science, Thane

2020 - 2022

Maharashtra State Board (HSC) : Percentage - 82.5

Mumbai, Maharashtra, India

Experience

SmowCode

Jun 2024 - Aug 2024

Software Development Intern

Mumbai, Maharashtra, India

- Enabled **GitHub-based Version Control** into the SmowCode IDE by debugging both **frontend** and **backend** code.
- Navigated and understood a **40+ KLOC** codebase built with **JavaScript**, **jQuery**, **Node.js**, and **Express**.
- Resolved authentication issues by replacing deprecated **password login** with **GitHub token-based authentication**.

Projects

E-Commerce Microservices Architecture (GitHub) | *Docker, Kubernetes(Minikube), RabbitMQ*

May 2025

- Containerized all microservices using **Docker** and orchestrated them via **Kubernetes** through **YAML configs**.
- Utilized **RPC** and **RabbitMQ** for lightweight inter-service communication and asynchronous task execution respectively.
- Configured **NGINX Ingress** as a reverse proxy to manage internal routing and external service exposure.
- Designed microservices with a mix of **FastAPI + MySQL** and **Node.js + MongoDB** to suit service-specific needs.

IPL Auction Website (GitHub) | *MERN Stack, Deployment, Socket.io*

Dec 2023 - Mar 2024

- Assisted in the **Frontend** of the website to simulate the experience of an actual IPL Auction for the users.
- Deployed Frontend on **Vercel** and Backend on **Render**, providing a **gamified environment** for about **80 teams**.
- Used **Socket.io** to update an interactive **UI** in real-time for an appealing **UX**.

Alumni Management System (GitHub) | *FastAPI, MySQL, JWT, RBAC*

Feb 2025 - July 2025

- Designed a **normalized MySQL schema** with necessary integrity constraints.
- Implemented **JWT authentication** and **role-based access control (RBAC)** for secure operations across alumni, college admins, and government admins. Tested workflows using **Postman**.
- Optimized** database queries by designing **indexes** on key and composite columns for efficient data access.
- Developed APIs in Python(FastAPI) with transactional support (**commits and rollbacks**) when required.

Heart Disease Prediction (GitHub) | *Python, Machine Learning*

June 2025

- Built a **classification model** to predict the presence of heart disease using medical attributes from a labeled dataset.
- Performed **exploratory data analysis (EDA)** including a **correlation matrix** and **Variance Inflation Factor (VIF)** scores to identify and handle multicollinearity.
- Trained and evaluated **Logistic Regression** and **K-Nearest Neighbors (KNN)** models using **ROC-AUC curves**, **Confusion Matrix**, **Accuracy**, and **Recall**.
- Emphasized on reducing **False Negatives** by adjusting probability thresholds, crucial for **disease diagnosis** models.

Technical Skills

Languages: Python, C, C++, JavaScript, SQL

Databases: MySQL, MongoDB

Tools: Docker, Kubernetes, GitHub, DockerHub

Libraries / Frameworks: React.js, Express (Node.js),
Mongoose, TailwindCSS, Scikit-learn

Achievements

SPIT Hackathon

AIML Domain Winner

Feb 2025

SIH 2024 Finalist

Finalist in SIH 2024 (Software Edition)

Dec 2024

Minithon

Runner-up in 6-hour **UI/UX Hackathon** held at SPIT

Oct 2024

SE Hackathon

2nd Position in Hackathon only for 2nd Years

Apr 2024

Recursion 5.0

4th Position in Hackathon held at RGIT

Mar 2024

Position of Responsibility

Technical Head

Dec 2023 - Mar 2024

Oculus - IPL Auction

Sardar Patel Institute of Technology, Mumbai

- Led a team of **5** and collaborated with **3 co-heads** to deliver the IPL Auction web platform, while ensuring seamless technical operations during the 3-day event.
