Education

Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology

November 2022 – May 2026

BTECH in Computer Science and Engineering (CGPA: 8.21)

Andheri, Mumbai

Technical Skills

Languages: Python, JavaScript, SQL

Web & Mobile Development: HTML, CSS, React, React Native, Expo, TailwindCSS, Flask, Redis

Databases: MySQL, PostgreSQL, MongoDB, Supabase

AI & ML Tools: LangChain, LangGraph, Agno, Hugging Face

Developer Tools: Git, Github

Projects

ARC 🏠 | *React, NativeWind, Flask, Supabase, LangGraph*

July 2025

- Created a **full-stack AI-powered platform** to auto-generate **Software Requirement Specification (SRS)** documents from uploaded documents and brief inputs.
- Integrated a **LangGraph-based orchestrator-worker model** enabling **parallel agent execution** for specialized subtasks, with **user review and editing capabilities** before output finalization.
- Enabled **AI-based task assignment** to team members by analyzing **task-skill relevance** and **current workload**, optimizing team productivity.
- Designed a **centralized project dashboard** with **real-time Kanban board** visualization, integrating **GitHub API** to automatically track team progress and individual contributions through **pull request monitoring**.

Travello 🏠 | *React Native, Expo, NativeWind, Flask, LangGraph*

May 2025

- Developed a **personalized voice-to-route AI travel assistant** with support for **5+ transport modes** and **50+ place categories** (e.g., library, petrol pump).
- Used **OpenAI Whisper** for audio transcription and **NLP** to extract user intent and route sequences from natural speech with **90% accuracy**.
- Implemented routing using **Ola Maps APIs** and **Open Trip Planner** with **GTFS data**, enabling route customization and reducing user planning time by **40%**.
- Enabled **Google Pay deep linking** for simulated in-app transport ticket booking with built-in **safety features** to ensure user protection.

EcoImpact 🏠 | *React Native, NativeWind, Python, Flask, MongoDB*

March 2025

- Built a **carbon emission tracking app** across **5+ categories** with centralized dashboard and gamified goals, helping users reduce footprint by **20%**.
- Created a **green product recommendation engine** using **Gemini image analysis** on **1000+ products** and **Faiss** for vector similarity search.
- Integrated **OCR-based electricity bill analysis** to suggest personalized energy-saving actions based on consumption patterns.
- Implemented crowdfunding for renewable projects with **secure mock escrow system**, automated refunds, and milestone-based fund release mechanism across **5+ categories**.

Leadership Experience

Marketing Head, Virtual Stock Market

August 2023 – June 2024

- Managed a cross-functional team of **15+ members** and organized the **flagship Oculus event** with **250+ attendees** achieving **95% attendance rate**, promoting **financial literacy** through simulated stock market.
- Oversaw allocation of **Rs.75,000 in funding** and spearheaded **marketing strategies** that increased **event engagement by 40%** and boosted **participant registration by 150%** compared to previous year.

Achievements

- 1st Place** - VESIT National Level Hackathon, IIIT BHU Hackathon
- 2nd Place** - Intercollege DSA Competition (SPIT), Case Study Competition (SCOE)
- 3rd Place/4th Place** - VJTI Unicus Ideathon, PAN-IIT PIWOT Hackathon (Jio World Convention Centre)
