Education

Sardar Patel Institute of Technology, Mumbai

Bachelor of Technology – Computer Science and Engineering (AIML) : CGPA: 7.69

2022 – 2026

Mumbai, India

Chhatrapati Shivaji Jr. Science College, Jalgaon

Maharashtra State Board (HSC) : Percentage: 87.33%

2022 – 2022

Jalgaon, India

Projects

E-Commerce Microservices Architecture 🔄 | Docker, Kubernetes(Minikube), RabbitMQ

Mar 2025

- Containerized all microservices using **Docker** and orchestrated via **Kubernetes** through **YAML configs**.
- Configured **NGINX** Ingress as a reverse proxy to manage internal routing and external service exposure.
- Implemented **RPC** for inter-service communication and **RabbitMQ** for async mails handling.
- Designed microservices with a mix of **FastAPI+MySQL** and **Node.js+MongoDB** to suit service-specific needs.

Burn After Read 🔄 | React.js, Express.js, Socket.io, MongoDB

Jun 2025

- Built a secure messaging platform supporting **one time seen secret messages** and **timer-based post expiry** using **node-cron** for scheduled deletion.
- Enabled completely anonymous usage with no login for confessions, and no data storage, tracking, or logs.
- Integrated **Socket.io** for real-time message delivery and **Kinde Auth** for access-controlled private messaging.

Comicipedia 🔄 | Flask, React.js, Node.js, MongoDB, LangChain

Apr 2025

- Built a full-stack **Generative AI application** that converts Wikipedia articles into Comics using AI.
- Developed the **Flask backend** integrating **LangChain** for contextual LLM-driven narrative generation.
- Utilized **MongoDB** for data handling and contributed to the modularity and scalability of the backend.

Kisan Care 🔄 | MongoDB, Express.js, React.js, Node.js

Apr 2024

- Designed and implemented the entire backend infrastructure with structured **MongoDB schema and collections**.
- Integrated **Stripe API** for secure transaction handling and developed **RESTful endpoints** for seamless frontend communication.
- Enabled **bilingual crop query support** using **Gemini API**, along with AI-powered **image upload** for crop disease detection.
- Collaborated on full-stack development, emphasizing modular backend architecture and consistent API interaction.

Technical Skills

Programming Languages: C, C++, Python, JavaScript, SQL

Libraries/Frameworks: React, Node.js, Express.js, FastAPI, Flask

Databases: MySQL, MongoDB

Developer Tools: GitHub, Docker, Kubernetes, Postman

Position of Responsibility

Technical Head – ACSES, Sardar Patel Institute of Technology

Aug 2024 – May 2025

- Collaborated in a team of two to organize a front-end hackathon and two coding contests.
- Contributed to the planning and execution of non-technical committee events.

Achievements

• **AIRAVAT 2.0 Hackathon** – IEEE CS Committee, SPIT

Apr 2025

PS Winner – **Generative AI Domain** in the hackathon held at SPIT, Mumbai.

• Secured **99.21%**ile in MHT-CET 2022
