Education

Sardar Patel Institute of Technology

Nov'22 - Present

Bachelor of Technology in Computer Science Engineering with AI and ML - 7.79 CGPA (up to 6th sem) Andheri, Maharashtra

Entrance Exam

Oct'20 - Mar'22

CET - 99.21 %ile

Thane, Maharashtra

Arya Gurukul International Jr. College of Science and Commerce

Oct'20 - Mar'22

12th HSC - 74.83 %age

Airoli, Maharashtra

Sri Ma Vidyalaya

Apr'10 - Jul'20

10th CBSE - 93.4 %age

Thane, Maharashtra

Projects

Aerosol Optical Properties Retrieval using Neural Networks | ML, Remote Sensing

Feb'25 - Present

- Engineered a high-precision model that outperformed official JAXA aerosol products in RMSE, MAE, and correlation against ground truth networks (AERONET, SONET).
- Generated near real-time aerosol monitoring outputs, enabling dynamic tracking of air quality over urban and industrialized regions.
- Integrated spectral, spatial, and temporal satellite measurements and optimized feature selection using XGBoost for improved input dimensionality reduction.

Insightress: Analytics dashboard for Startup intelligence(Backend) | FastAPI, MongoDB

Feb'25 - May'25

- Developed as part of a project for SPTBI, a startup incubator, Insightress is a centralized platform to visualize startup funding, scheme performance, and domain market trends.
- Designed dashboards showcasing sector-wise startup distribution, scheme vs fund type analytics, and market trend predictions.
- Enabled incubators to gain actionable insights on funding trends, startup sector growth, and market dynamics through data-driven reporting.

B2B E-Commerce Website (Backend) | Flask, MongoDB, Socket.IO

Feb'24 - Apr'24

- Designed and developed backend for a B2B E-Commerce website using Python, Flask, and MongoDB.
- Built endpoints for product management, enabling creation, updates, filtering, and categorization of products.
- Enabled real-time messaging between users using Socket.IO, providing a communication feature within the application.
- Added wishlist and cart functionalities, allowing users to add, remove, and retrieve items.
- Utilized MongoDB to store product data and user information securely.

Technical Skills

Languages: Python, Java, C, HTML, MongoDB, MySQL

Developer Tools: VS Code, PyCharm, Google Colab

Technologies/Frameworks: Flask, FastAPI, GitHub, GitLab, Docker

Extracurricular

Competitions/Hackathons

2024 - 2025

SPIT Andheri, Maharashtra

- Reached Top 10 in Here Hackathon 2025 with a team of 5.
- Participated in Barclays Hack-o-Hire 2025 with a team of 4.
- Participated in Smart India Hackathon 2024 with a team of 6.
- Led a team of 4 in a frontend minithon.

Sports

2017 - 2020

Sri Ma Vidyalaya School

- Was a part of the School Basketball team's playing 5.
- Have participated in multiple chess tournaments.
