EDUCATION

- **B.Tech. in CSE (with AIML)** 2022-26
Sardar Patel Institute of Technology *Current CGPA: 5.89*
- **HSC - Shri Chaitanya Jr. College JNV Ahmednagar** 2020-2022
Higher Secondary Certificate *Percentage: 89%*
- **SSC** 2020
Secondary School Certificate *Percentage: 89%*

SKILLS

- **Programming Languages:** Python, C, C++ (Basic), MySQL
- **Web Technologies:** HTML, CSS, JavaScript, Flask, FastAPI, Streamlit
- **AI/ML & NLP:** NumPy, Pandas, BeautifulSoup, NLP, LangChain, LLM, Dialogflow, SBERT, RoBERTa NER, GCN
- **Data Visualization:** Matplotlib, Seaborn, Pandas
- **Databases:** MongoDB, MySQL
- **Soft Skills:** Teamwork, Leadership
- **Languages:** Marathi, Hindi, English

PROJECTS

- **SmartRecruit - AI Resume Filtering System** Jan 2025
Technologies: Python, NLP, GNN, FastAPI, Streamlit, MongoDB, LLMs
 - Built AI system achieving 98.85% resume ranking accuracy with automated shortlisting of 900+ resumes.
 - Used LLMs for keyword extraction, SBERT for similarity, and RoBERTa NER for skill recognition.
 - Designed scoring logic combining semantic, graph-based, rule-based, and culture-fit analysis.
 - Developed real-time Streamlit dashboard with rankings, metrics, and analytics reports.
- **Face Recognition Attendance System** Nov 2024
Technologies: Python, OpenCV, Raspberry Pi, Flask, RFID, Apache Server, Arduino
 - Created secure AI attendance system with RFID and real-time face recognition integration.
 - Used OpenCV for accurate 95% face recognition via detection and feature extraction.
 - Designed Flask-based RESTful APIs for hardware-software communication with server DB.
 - Built real-time tracker with timestamps, display feedback, and analytics dashboard.
- **PDF-Based Question-Answering System** Sep 2024
Technologies: Python, Flask, LangChain, Perplexity AI API, PyMuPDF, NLP
 - Built context-aware QA system handling large PDFs using LangChain and Perplexity AI.
 - Used PyMuPDF for efficient PDF parsing and indexing with fast search capabilities.
 - Enabled NLP-based query processing and contextual answering with source citations.
 - Developed interactive web UI for uploads, queries, and response display.
- **AI-Driven CareerYatra Platform** Jul 2024
Technologies: Python, ML, BeautifulSoup, NLP, Recommendation Systems
 - Built ML-based platform for career guidance and personalized course recommendations.
 - Used NLP to analyze user inputs and match career paths with 90% satisfaction.
 - Scraped course data via BeautifulSoup to enrich UI with dynamic visual content.
 - Created tools for skill assessment, learning paths, and progress tracking.

CERTIFICATIONS

- **GenAI - Vizuara AI Labs** May 2025
Generative AI Fundamentals *Certificate*
