EDUCATION

Sardar Patel Institute of Technology

Bachelor's of Technology, Computer Science Engineering (AIML)

CGPA: 8.5

2022 - 2026

Khar Education Society

Higher Secondary Education, Maharashtra

Percentage: 90.33%

2022

Parle Tilak Vidyalaya

Indian Certificate of Secondary Education

Percentage: 98.60%

2020

TECHNICAL SKILLS

Languages: Proficient in **Python**, **Java**, familiar with **C**

Software Engineering: Microservices architecture, Distributed Systems, REST API design, Backend Development, Debugging, Troubleshooting

Frameworks & Tools: Spring Boot, Django, Flask, Git, GitHub, Bash, Google Cloud Services, Redis, PostgreSQL, MySQL, MongoDB, Docker (basic)

Computer Science Fundamentals: Data Structures and Algorithms (DSA), Operating Systems, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Computer Networks (TCP/IP)

AI/ML Applications: Generative AI (GenAI), Natural Language Processing (NLP), Real-world ML integrations

Web Development: HTML & CSS, HTMX, React(basic), Frontend-backend integration

Soft Skills: Communication, Collaboration, Problem-Solving, Adaptability, Leadership, Time Management

PROJECTS

- **Fitness AI Microservices App**, [GitHub](#)
 - Developed **scalable microservices architecture** using **Spring Boot** and **Spring Cloud** to ensure modularity, maintainability, and rapid feature integration.
 - Implemented robust **security and authentication** with **Keycloak (OAuth 2.0)**, ensuring secure access and **user data protection**.
 - Enabled efficient inter-service communication and centralized configuration using **RabbitMQ** and **Spring Cloud Config** Server for high reliability and easy deployment.
 - Integrated **AI-driven**, personalized health and fitness recommendations leveraging **Google Gemini API** for dynamic user engagement and actionable insights.
 - Built a responsive, user-friendly frontend with React for seamless activity tracking and interactive recommendation visualization.
- **Post2Product AI (ongoing)**, [GitHub](#)
 - Automates the conversion of **Instagram media** into **Amazon-ready product listings** using AI for compliance, SEO optimization, and formatting.
 - Processes raw media into refined products, ensures Amazon compliance, and publishes listings via the **Amazon Seller API**.
 - Built using **Flask**, **MongoDB**, **Instagram Graph API**, and **Amazon Seller API** for seamless integration and scalability.
- **Banking Application**, [GitHub](#)
 - Developed a secure banking application using **Spring Boot** and **MySQL**, following **OOP principles** for maintainability.
 - Implemented **Spring Security** with **JWT authentication** and **Role-Based Access Control (RBAC)** using enums to enforce access restrictions.
 - Automated bank statement generation, creating and delivering transaction history PDFs via email using **iTextPDF**.
 - Designed a simple dashboard with **Swagger** for API documentation and seamless testing.

ACHIEVEMENTS

- **Shortlisted one of the top 20 teams** in the **UBS Campus Hackathon**.
- **Knight @ Leetcode (2000+ rated)**, over **800** problems solved
- Received a **rank of 477 out of 26298 people** in the LeetCode Weekly Contest 453
- **Top 10 Finalist: Shortlisted as one of the 10 teams** at Technovate 2.0 Mumbai.
- **Top 10 Finalist: Shortlisted as one of the 10 teams** at Here Technologies Hackathon 2025.

EXTRACURRICULAR ACTIVITIES

- **Event Coordinator** in Oculus - Coordinated various festival activities, worked with a team to plan and execute decorations, and managed logistics to ensure smooth operations. **(1 year)**
- **Senior Correspondent** in SPark - Reported on key events held at the college and wrote articles for the college website, ensuring accurate and engaging coverage. **(6 months)**
