EDUCATION

Bhartiya Vidya Bhavans Sardar Patel Institute of Technology, Mumbai

B.Tech in Computer Science Engineering - Artificial Intelligence & Machine Learning

Oct 2022 - Jul 2026 (Expected)

PROJECTS

Robot Beverage Vendor

An AI-powered, fully autonomous robot that engages in natural conversations with customers, takes orders, handle payments, and dispenses beverages — all without any human intervention.

- Conversational Ordering: Uses natural language to interact with customers and takes beverage orders.
- Cashless Payments: Automatically calculates the bill and displays a UPI QR code for seamless digital payment.
- Automated Dispensing: Dispenses the selected beverage immediately after successful payment verification.
- Technologies & Tools: LLM, NLP, Raspberry Pi, Arduino, Python
- Deployments: Successfully deployed in a live restaurant; handled real customer orders autonomously and received positive feedback.
- Robot Demo: [Click Here](#)

AI Tutor for Maharashtra Board Students (Standards 8–10)

Live at innovatifai.com

- Designed and deployed an AI tutoring platform tailored for Maharashtra State Board students of Standards VIII, IX, and X.
- Built the website using WordPress, hosted it, and purchased & configured the domain innovatifai.com for public access.
- Fed full Maharashtra Board textbooks and structured instructions to tailor the AI's responses for conceptual clarity, accurate answers, and exam relevance.

Multilingual GPTs – ChatGPT GPT Store

- Developed and published 19 custom GPTs on the ChatGPT GPT Store, each tailored to a specific language, mimicking ChatGPT's functionality with native-language-only interaction.
 - Languages include Hindi, Marathi, French, Spanish, Tamil, and more. One GPT surpassed 50K+ conversations, another 10K+, with multiple others engaging thousands of users worldwide.
-

ACHIEVEMENTS

- **Student Entrepreneur of the Year 2024-25 – SPIT Mumbai**
 - **2nd Place – Hardware Project Competition**
-

TECHNICAL SKILLS

- Programming & Development: Python, FastAPI, REST APIs, Frontend & Backend Development, Automation Scripting
- AI & ML: LLMs, AI Automation, Custom GPTs, Machine Learning
- Hardware & IoT: Raspberry Pi, Arduino, Relays, GPIO, Sensors, Serial Communication
- Platforms & Tools: WordPress, Google Colab, VS Code, Arduino IDE
