

Vidhi Parmar

EDUCATION			
Name of course	Passing Year	Name of institute	CGPA
B-TECH: Computer Science and Engineering (AIML)	2022-Present	Sardar Patel Institute of Technology	6.14 / 10.00
Class XII, BOARD	2022	Pace	70%
Class X , BOARD	2020	Sarvanaman Vidya Mandir	80.8%

PROJECTS

Football Highlight Generator (Team Project)

- Collaborated in a team to develop an automated football highlight generation platform
- Engineered responsive frontend interfaces using React.js, implementing modern UI components and state management

AI Photo Generator

- Developed a standalone frontend application integrating AI image generation capabilities
- Designed and implemented an intuitive user interface using React.js and modern JavaScript
- Created seamless user experience with dynamic loading states and error handling
- Implemented responsive design ensuring optimal display across desktop and mobile devices

Sales Insights Dashboard (Power BI)

- Built an interactive sales dashboard using Power BI to visualize sales trends across regions and customer segments

- Created KPIs like total revenue, profit margin, and year-over-year sales comparisons
- Enabled dynamic filtering using slicers for sales reps, categories, and time periods

Supply Chain Insights (Power BI, FMCG Domain)

- Analyzed supply chain data to uncover delays, demand gaps, and product flow inefficiencies
- Created category-wise delivery performance visualizations and DAX-based KPIs
- Presented insights with dashboards for business operations and demand planning
