I'm a final-year Computer Science student specializing in AI and ML. I've working on projects like a mental wellness robot and financial dashboards, and I thrive on solving real-world problems. With experience in team leadership and a global perspective, I'm excited to bring my skills to JPMorgan's Corporate Risk or CIB Analytics team, where I can contribute with strategic thinking and a hands-on approach.

EDUCATION

Sardar Patel Institute of Technology

B.Tech in Computer Science (AI & ML), Sardar Patel Institute of Technology

[Expected 2026]

Shri GPM Degree College of Science and Commerce , Mumbai, India

Science , HSC | Percentage: 80.8%

[Passed in 2022]

Swami Vivekanand International School , Mumbai, India

Senior Secondary Examination, ICSE | Percentage: 80.8%

[Passed in 2020]

EXPERIENCE

Junior Marketing Manager – AIESEC Mumbai

[Feb 2023 – July 2023]

Handled college partnerships, CRM tools, and crafted campaigns for youth-led programs.

Startup Founder (3 Ventures)

Launched a smart device prototype, a clothing brand, and a creative agency—managing branding, ops, and sales.

Marketing Intern – Kwaliti Walls (Vintech)

[july2024 – Jan 2025]

Managed retail activation campaigns and coordinated with vendors for seasonal promotions.

Community Manager – Discord Server (Founder)

Grew and engaged a large online community through events, contests, and member initiatives

Model & Stylist – Monk Entertainment (MonkE) & Freelancer

Worked with MonkE as an in-house model on branded campaigns and creative shoots. Worked as a Freelancer model and did fashion styling projects and personal interior designing projects.

PROJECTS

AI Companion for Mental Wellness

Designed an emotion-sensing robot using Jetson Nano and Python. Analyzed facial expressions and voice tones for real-time feedback.

Integrated Arduino sensors and cloud APIs for interactive response.

Excel Financial Risk Dashboard

Built a financial dashboard in Excel using Screener.in data. Automated risk ratio and DCF calculations. Simplified report generation for analyst use.

Streetwear Brand Revival Strategy

Analyzed the failure of a personal clothing brand. Developed a relaunch plan with competitor benchmarking and a go-to-market strategy, including influencer campaigns.

COURSES & CERTIFICATIONS

Google Code-in Contributor – Google Open Source

[Completed 2 tasks (2018), 3 tasks (2019)]

Business Process Design – JPMorgan Chase (*Forage Virtual Experience*)

AI for Everyone – IBM

Financial Markets – Yale University

Introduction to Risk Management – NYIF
