Objective

Detail-oriented Computer Science student with a strong foundation in software development and a passion for technology. Seeking to leverage technical skills in a challenging role to contribute to impactful projects and grow professionally.

Education

Sardar Patel Institute of Technology, Mumbai

Bachelor of Technology in Computer Science (Data Science)

Nov. 2022 – Present

CGPA: 8.15

Shailendra Junior College, Mumbai

Higher Secondary Certificate

2022

Percentage: 78.17%

St. Paul's High School, Mumbai

Secondary School Certificate

2020

Percentage: 92.2%

Relevant Coursework

- Data Structures
- Database Management
- Machine Learning
- Data Science
- Artificial Intelligence
- Computer Networks
- OOPs
- Operating Systems

Projects

LegalEase — MERN, LangChain, Stripe, WebRTC, DeepSeekR1

[GitHub](#)

April 2025

- Built a full-stack legal case management platform with client registration, case tracking, lawyer appointments, and secure **Stripe** payments.
- Integrated encrypted **WebRTC** video calls for real-time client-lawyer communication.
- Developed an AI legal assistant using **LangChain** + **DeepSeekR1** for RAG-based PDF search and legal query resolution.
- Automated legal contract drafting with lawyer review workflow and instant PDF export.

MediCare — React.js, Node.js, Express, MongoDB, Cloundinary, RazorPay

[GitHub](#)

Nov 2024

- Implemented a **full-stack** doctor appointment booking platform with **Razorpay** payment integration.
- Built a **rule-based chatbot** to identify user symptoms and redirect to the appropriate specialist.
- Implemented authentication, role-based access, and real-time appointment scheduling using **MongoDB**.

FinTrack — Python, LSTM, XGBoost, K-Means

[GitHub](#)

June 2025

- Researched and implemented a hybrid regression framework combining **LSTM** for time-series inflation forecasting and **XGBoost** for feature-based prediction.
- Applied **K-Means clustering** on financial behavior data to segment patterns for enhanced model accuracy.
- Delivered personalized, insight-driven forecasts by integrating time-series forecasting with clustering methods.

Technical Skills

Languages: C, Java, Python, Javascript

Libraries/Frameworks: Node.js, React.js, Tailwind CSS

Databases: MySQL, MongoDB Atlas

APIs/Tools: Cloundinary, JWT, REST APIs, Razorpay, Gemini API

AI/ML: Numpy, Pandas, Scikit-Learn

Position of Responsibility

OCULUS Committee – Esports Event Tead

SPIT, Mumbai

- Coordinated, managed, and promoted multiple esports tournaments throughout the academic year, ensuring smooth event execution, high participant engagement, and growth of the college esports community.

Achievements & Extra-Curricular Activities

- Solved 300+ Data Structures and Algorithms problems on **LeetCode**, improving coding proficiency.
- Secured a **Top 10 rank** in the SE Hackathon at SPIT for an innovative development solution.
- Participated in the **HERE Technologies Hackathon** at SPIT, building a location-aware AI solution.
- Led a team of 4 to build a full-stack prototype, ranking in the **Top 5** at the RGIT National Hackathon.
- Won **2 General Championships** in college cricket tournaments as part of the team.
