Education

Bhartiya Vidya Bhavan's Sardar Patel Institute Of Technology

2022 – Present

Bachelor of Technology in Computer Science and Engineering (Data Science) CGPA: 9.2

Mumbai, India

SP Jain Institute of Management and Research

2024 – Present

Minor in Management

Focus: Data Analytics, Project and Supply chain Management

Relevant Coursework

- Data Structure
- Database Management
- Operating System
- Computer Architecture
- Algorithms Design
- Computer Networks
- Discrete Structures
- Machine Learning

Projects

Nimbus Aerospace Supply Chain Management 🛠️ | *ReactJS, NodeJS, SupaBase, Ganache, IPFS*

2025 – Present

- Architected and developed a blockchain-based aerospace parts supply chain system, enabling **tamper-proof part traceability** and reducing verification time.
- Built the public blockchain layer using Ganache and Truffle with Solidity smart contracts for part listing, unlisting, ownership transfer, and maintenance logs; integrated IPFS (via Pinata) to securely store over **1,000+ part records**.
- Contributed to frontend development with smart contract integration, enabling real-time updates and improving traceability and compliance across **5+ stakeholder roles** (technician, inspector, OEM, manager, regulator).

Vidyoday EduTech Platform | *ReactJS, NodeJS, Gemini API, MongoDB, RazorPay*

2025

- Built a multi-role dashboard (Admin, Volunteer, Headmaster, Teacher) with role-specific frontend pages for managing class schedules and volunteer attendance, impacting over **2500+ students** across **60+ schools**; automated salary payouts reduced manual processing time.
- Developed teacher portals for uploading student results and visual analytics, improving performance tracking and enabling faster decision-making by headmasters.
- Leveraged Gemini API to auto-generate bilingual (English/Marathi) curriculum modules linked to articles/videos, enriching the content base by **many unique modules**.
- Integrated a Gemini-powered bilingual chatbot into the frontend, providing 24/7 learning support and resolving for **student queries**.

Crowd Funding Website 🛠️ | *ReactJS, NodeJS, MongoDB*

2024

- Led the end-to-end development of a dynamic crowdfunding platform connecting **project creators** with potential backers, interns, and collaborators.
- Implemented features for project creation, funding goal-setting, and multimedia sharing; enhanced creator engagement and enabled backers to contribute via a seamless, secure interface.
- Improved user retention through intuitive UX design and reduced project setup time via optimized form flows and real-time validation.

Positions of Responsibility

CHAIRPERSON — ACSES SPIT

August 2024 – Present

Sardar Patel Institute of Technology

Mumbai, India

- **Responsibility:** Headed the CSE department's Techno-Cultural Home Committee, blending technical innovation with cultural vibrancy by organising more than **5** events like hackathon, trek and many more.
- **Experience:** Led 30+ members in planning flagship technical and cultural events, fostering student engagement and collaboration with faculty.

MARKETING HEAD — Oculus 2024 & ACSES SPIT

2023-2024

Sardar Patel Institute of Technology

Mumbai, India

- **Responsibility:** Oversaw sponsorship and marketing operations for Oculus 2024 (Funzone) and events under ACSES SPIT.

Technical Skills

Languages: Java, C, Python, SQL

Libraries: Numpy, Pandas, Matplotlib

Frameworks/Tools: ReactJS, HTML/CSS, MySQL, Tableau

Soft Skills: Leadership, Critical thinking and Problem Solving, Professional integrity, Teamwork, Effective communication, Organization

Achievements

- Runner-up in Code for Good Hackathon 2025 arranged by JPMC
- Finalist in Code Uncode 2025, a State level Coding Challenge.
- 1314 rating on Codeforces; solved over 1000 problems across platforms.
- Finalist in Bizquest Competition 2024, E-Cell SPIT.
