Education

Sardar Patel Institute of Technology, Mumbai 2022 – Present

Bachelor of Technology in Computer Science and Engineering (Data Science) — CGPA: 8.15

Vidyavardhini's Annasaheb Vartak College, Mumbai 2020 – 2022

Higher Secondary Certificate (HSC), Science Stream — 89%

St. Mary's High School, Mumbai 2019 – 2020

Secondary School Certificate (SSC) — 94.80%

Relevant Coursework

- Data Structures
- Algorithms
- Machine Learning
- Operating Systems
- Database Systems
- Computer Networks
- GenAI
- Data Science
- Probability & Statistics

Projects

Personalized Finance Advisor | *ReactJS, LSTM, XGBoost, MongoDB, Python*  2025

- Researched and implemented a hybrid regression framework combining LSTM for time-series forecasting and XGBoost for feature-based prediction, achieving a low MSE of 0.01.
- Applied K-Means clustering to segment users into behavioral profiles (e.g., high-earning high-spending, conservative, low-income), and integrated a custom company scoring mechanism using FinLDA topic modeling and sentiment analysis of financial news
- Currently developing an end-to-end recommendation pipeline that fuses time-series forecasting, clustering, and sentiment analysis to deliver personalized financial decision-making.

UrbanNest – Real Estate Web Platform | *MERN Stack, JWT, Scikit-learn, K-Means* 2025

- Built a full-stack real estate platform using the **MERN stack**, implementing **JWT authentication**, **Google OAuth**, and **Cloudinary integration** for property listings.
- Integrated advanced search functionality, allowing users to refine property searches across **7 distinct parameters** through keyword and parametric filtering.
- Developed a **K-Means clustering**-based “Show Similar Listings” feature with **Scikit-learn** for intelligent property recommendations.

Real-Time Chat App with Redis Pub/Sub | *React, Node.js, Socket.IO, Redis* 2025

- Developed a real-time messaging app with private and general chat rooms using WebSockets and Redis Pub/Sub.
- Optimized message storage using Redis hashes, sets, and sorted sets for fast and scalable data retrieval.
- Engineered session handling, dynamic room creation, and multi-client message broadcasting using Socket.IO.

Technical Skills

Languages: Java, JavaScript, SQL, Python

Frameworks & Tools: React, Node.js, Express, HTML/CSS

Databases: MySQL, MongoDB, Redis

Libraries: TensorFlow, PyTorch, NumPy, Pandas, Matplotlib, HuggingFace,

Soft Skills: Ownership, Collaboration, Communication, Problem-solving, Analytical Thinking

Certifications

Generative AI, Building fundamentals 2025

Covered RNNs, LSTMs, Attention, GANs, and Diffusion Models as part of foundational training in Generative AI.

Achievements / Extra-Curricular Activities

Solved **400+** coding problems across platforms including LeetCode, GeeksforGeeks, and others.

Two-time **District-level Basketball Champion**.

Runner-up, All-Mumbai Inter-College Cricket Tournament hosted by KJ Somaiya College.
