Education

Sardar Patel Institute of Technology, Mumbai <i>Bachelor of Technology in Computer Science (Data Science)</i>	2022 – 2026 <i>CGPA: 8.82/10</i>
S.P. Jain Institute of Management and Research, Mumbai <i>Minor Degree in Management</i>	2023 - 2025
Mahatma School Of Academics & Sports and Jr. College, Navi Mumbai <i>Higher Secondary Certificate (HSC)</i>	2020 - 2022 <i>Percentage: 84.83%</i>
Convent of Jesus & Mary International School, Navi Mumbai <i>Secondary School Certificate (SSC)</i>	2010 - 2020 <i>Percentage: 93.60%</i>

Experience

Aim4U Company <i>Web Developer Intern</i>	Oct 2023 – Dec 2023 <i>Andheri, Mumbai</i>
- Built and integrated core UI components for gyan.aim4u.co.in using Chakra UI. - Collaborated with the Django backend team to ensure seamless API integration and efficient data handling. - Improved cross-device responsiveness and accessibility, resulting in faster load time and enhanced UX.	

Projects

Women Safety App (SurakshaSathi) Tech: Python, Django, JavaScript, Vosk, Twilio	Jan 2025
- Developed a Django-based safety app with real-time route anomaly detection using GPS data. - Enabled voice-triggered emergency actions and alerts through Vosk speech recognition and Twilio integration. - Built personalized safety maps with web-scraped crime data, proximity-based community alerts, and offline support.	
Revolutionizing Learning with AI Tech: Python, LangChain, Gemini API, Django, React, ML	Feb 2025
- Engineered a full-stack AI learning platform using Django + React, integrating adaptive testing, real-time attention tracking, and progress analytics. - Implemented a chatbot tutor using Gemini API and LangChain to deliver contextual academic responses based on lecture transcripts. - Integrated Hugging Face Transformers and Facebook BERT for automated note summarization; deployed real-time drowsiness detection using eye aspect ratio, OpenCV, and Django for user-specific state management.	
Cyclist Safety Assistant (Pedal.AI) Tech: Python, OpenCV, TensorFlow, Voice Recognition	Mar 2025
- Built a real-time AI assistant for cyclists enabling fatigue detection, hazard flagging, and voice-based SOS alerts. - Used computer vision and ML models to analyze live camera feeds for collision risks and unsafe route markers. - Implemented voice navigation and emergency detection by recognizing distress cues like repeated shouts for help.	

Technical Skills

Languages: Python, Java, SQL
Technologies/Frameworks: MySQL, HTML, CSS, Docker (Basic), Chakra UI, Django
Developer Tools: Windows, Linux, VS Code, Jupyter, Git, GitHub

Achievements

- **1st Runner-Up** – International Women Hackathon (TYNET 2.0), Jan 2025
- **1st Runner-Up** – CodeAthon at Vidyalankar Institute of Technology (VIT), Jan 2025
- **2nd Runner-Up** – SPIT Hackathon, among 550+ teams, Feb 2025
- **2nd Runner-Up** – HERE India Hackathon, May 2025

Positions of Responsibility

Joint Secretary, ACSES – SPIT <i>Organized 5+ events, coding contests, and workshops for 200+ students across multiple colleges.</i>	2024–2025
Head of Operations, Oculus – SPIT <i>Managed event logistics, scheduling, and team coordination for Oculus tech fest with 800+ participants.</i>	2023–2024
Head of Marketing, AEJ Oculus – SPIT <i>Led sponsorship and fundraising initiatives; secured funding and resources for event operations.</i>	2023–2024
