Education

Sardar Patel Institute of Technology, Mumbai

Bachelor of Technology in Computer Science and Engineering (Data Science)

Nov. 2022 – Jun 2026

Mumbai, Maharashtra

V.N. Patil College, Igatpuri

HSC - Science Stream (Percentage: 84.67%)

Mar. 2022

Nashik, Maharashtra

Relevant Coursework

- Data Analytics
- SQL for Data Analysis
- Database Management
- Python for Data Analysis
- Statistics for Data Science
- Power BI / Tableau
- Excel for Data Analysis
- Exploratory Data Analysis (EDA)

Projects

Aerosol Classification Using Hybrid ML | *Python, Random Forest, Mie Scattering*

Feb-Current

- Built a hybrid aerosol classification model by combining **Mie scattering simulations** with **Random Forest** to improve accuracy on global AERONET data.
- Achieved **95% micro-precision** and **89% accuracy** classifying aerosols into five types.
- Leveraged **SSA**, **AOD**, **EAE**, and **CRI** features across multiple wavelengths to build a robust classification pipeline.

Mobile Sales Dashboard | *Power BI, Excel, Data Visualization*

June 2025

- Developed an interactive **Power BI dashboard** to analyze mobile sales, revenue trends, and product performance across cities.
- Visualized key metrics including total sales, mobile model performance, and transaction volume using the Mobile Sales Dataset.
- Implemented slicers, drill-down charts, and time-based comparisons including **Month-to-Date (MTD)** and **Year-over-Year (YoY)** reports.

Sales Data Analysis Using SQL | *MySQL Workbench, SQL*

May 2025

- Performed sales, product, and customer analysis on the Walmart Sales Dataset using **SQL** to uncover revenue trends and product performance.
- Applied **Feature Engineering** to create new columns like *time_of_day*, *day_name*, and *month_name* for time-based insights.
- Utilized advanced SQL techniques including **JOINS**, **CTEs**, and **CASE** logic to classify product performance and analyze VAT contributions.
- Conducted **Exploratory Data Analysis (EDA)** to extract actionable business insights.

Technical Skills

Languages: Python, SQL, Excel (Advanced), DAX, HTML/CSS

Data Analysis & Visualization Tools: Power BI, Tableau, MySQL Workbench, Excel, Google Sheets

Technologies/Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Other Tools: GitHub, VS Code, Google Collab

Extracurricular Activities

Deloitte Australia Virtual Job Simulations

June 2025

Data Analytics, Cyber, and Technology Tracks — Forage Platform (Remote)

Online

- **Data Analytics:** Completed simulation on forensic data analysis. Built a Tableau dashboard and used Excel to derive actionable business insights.
- **Cyber:** Investigated web activity logs and assisted in crafting a response plan for a simulated cybersecurity breach.
- **Technology:** Drafted a dashboard development proposal as part of a tech solution simulation.
