Education

Government Boys Higher Secondary

Higher Secondary(10+2)

Nov 2019- Dec 2021

Srinagar

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science

Nov. 2022 – Present

Mumbai

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Database Management
- Operating System
- Internet Technology
- Computer Networks
- Distributed Computing
- Cloud Computing

Experience

CyberSpark

March 2025 – June 2025

Software Engineer Intern

Remote

- Refactored an internal application codebase to align with clean code principles, enhancing maintainability and readability.
- Implemented comprehensive testing strategies, including unit tests with Jest and end-to-end tests using Playwright, improving code reliability and deployment confidence
- Built a dynamic, config-driven UI integrated with Payload CMS, enabling seamless content updates and reducing developer dependency for content changes.

Projects

FlowSync | *Next.js, Node.js, Express.js, PostgreSQL (Prisma ORM), Apache Kafka, OAuth 2.0*

February 2025

- Designed FlowSync as a workflow automation platform to connect applications and eliminate repetitive tasks efficiently.
- Built a scalable **microservices architecture** with modular backend services (primary-backend, processor, worker).
- Implemented Apache Kafka for **event-driven processing**, enabling seamless inter-service communication.
- Integrated Notion, GitHub, and Amazon SES via **RESTful APIs** to automate workflows and enable seamless cross-platform connectivity.

Prescripto | *React.js, Node.js, MongoDB, Socket.IO, WebRTC*

November 2024

- Implemented secure authentication using **JWT** to safeguard user data and access.
- Enabled real-time doctor-patient interactions through **WebRTC** powered video calls.
- Developed separate dashboards for admins and doctors, ensuring role-specific functionality and an intuitive interface.

Shiksha Sangam | *React Native, Django, PostgreSQL, Cloudinary, WebSockets, VideoSDK*

December 2024

- Engineered a full-stack student-alumni interaction platform with **role-based access control (RBAC)** for Students, Alumni, and College Administration.
- Built a **job and opportunity posting system** for Alumni and TPOs with PostgreSQL-backed filtering and search.
- Developed **real-time chat** using **WebSockets** supporting secure messaging, resume uploads via **Cloudinary**, and instant video meetings through **VideoSDK**.

Technical Skills

Languages: Java, JavaScript, Python, C, SQL

Developer Tools: VS Code, Postman, GitHub, Expo

Technologies/Frameworks: React.js, Node.js, Express.js, MongoDB, MySQL, Jest, React Native, AWS

Achievements

- **Smart India Hackathon Finalist 2024:** Selected from over 50,000+ teams nationwide to present an innovative solution to the Government of Rajasthan and AICTE during the offline grand finale at Lovely Professional University, Punjab.
- Finalist at **SPIT SE Hackathon** and **Here Technologies Hackathon**.

Extracurricular

CSI SPIT

Jan 2023 – July 2024

Events Head

- Collaborated with the Events team to plan, organize, and execute 10 successful events, including hackathons and bootcamps including Mumbai's largest 24-hour hackathon with 1,500+ participants.
- Coordinated logistics, including venue setup, sponsor engagement, and participant registration, ensuring smooth event operations.
